

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

8.

All questions relating to the priority of business shall be decided without debate.

The President shall give notice at each whether it be the first, second, or third, which reading shall be on different days, unless the Senate, by a two thirds vote, direct otherwise; *provided*, that upon the first reading of a bill, if no objection be made, it may, without delay, be read a second time by title, and be committed or placed on the general file. 12.

All bills, amendments, and resolutions, after being engrossed, in pursuance of the order of the Senate, shall be carefully examined and reported back by the Committee on Engrossed Bills, and when, by order of the Senate, any Senate bill shall have been considered engrossed and passed, it shall be the duty of said committee to cause the same to be correctly engrossed and reported to the Senate; the engrossed copy to be transmitted to the Assembly, with the proper indorsements, and the original retained by the Senate.

13.

All bills, after the second reading, (if the same be not committed, but, if committed, then upon being reported,) shall be placed upon a general file, and shall be taken up for consideration and passage in the order of their being placed on file; *provided*, that engrossed bills shall take precedence of bills not engrossed.

14.

AMENDMENTS AND SUBSTITUTES.

Substitutes may be offered at any time when a bill or resolution is open to amendment, previous to engrossment, and when adopted shall take place of the original bill or resolution, and shall be open to amendment.

15.

No motion or proposition on a subject different from that under consideration shall be admitted under color of amendment or substitute.

16.

In filling up blanks, the least sum or number and the shortest time shall be put first.

When an amendment to the Constitution, or any bill requiring the concurrence of two thirds of the Senators, is under consideration, the concurrence of two thirds shall not be required to decide any question for amendments, or extending to the merits, being short of the final question.

21.

When a resolution shall be offered, or a motion made to refer any subject, and a different committee shall be proposed, the question shall be taken in the following order :

3. A Select Committee.

22.

No claim shall be paid out of the Contingent Fund of the Senate until the same shall have been referred to and reported on by the Committee on Contingent Expenses.

23.

ORDER.

When a question is under debate, no motion shall be received but the following privileged questions, which shall have precedence in the following order :

1. To adjourn.
2. For a call of the Senate.
3. To lay on the table.
4. To postpone to a day certain.
5. To commit.
6. To amend.
7. To postpone indefinitely.

24.

No motion shall be debated until the same be seconded, and distinctly announced by the President ; and it shall be reduced to writing if desired by the President or any member, and read by the Secretary before the same shall be debated. A motion may be withdrawn at any time before amendment.

25.

When the reading of a paper is called for, (except petitions,) and the same is objected to by any member, it shall be determined by a vote of the Senate, without debate. But this rule is not applicable to any bill, resolution, amendment, or other proposition which may be at the time directly under consideration.

26.

Every Senator, when he speaks, shall, standing in his place, address the President, and when he has finished he shall sit down. No member shall speak more than twice in any one debate on the same day and at the same stage of the bill, without leave ; and Senators who have once spoken shall not again be entitled to the floor, (except for explanation,) to the exclusion of another who has not spoken.

When two or more members rise at once, the President shall name the member who is to speak first.

When a member shall be called to order he shall sit down until the President shall have determined whether he is in order or not; and every question of order shall be decided by the President, subject to an appeal to the Senate by any member. If the member be called to order for words spoken, the exceptional language shall immediately be taken down in writing.

QUESTION.

The final question upon the second reading of every bill originating in the Senate, and requiring three readings previous to being passed, shall be: "Shall it be engrossed, and read a third time?" And no amendment shall be received for discussion at the third reading of any bill, but it shall at all times be in order before the final passage of any such bill to move its commitment under special instructions.

The previous question shall be in this form: "Shall the main question be now put?" It shall only be admitted when demanded by a majority of the Senators present, and its effect shall be to put an end to all debate and bring the Senate to a direct vote upon amendments reported by a committee, if any, upon pending amendments, and then upon the main question. On a motion for the previous question, and prior to the seconding of the same, a call of the Senate shall be in order; but after a majority shall have seconded such motion, no call shall be in order prior to the decision of the main question.

On a motion for the previous question, and under the previous question, there shall be no debate. And all incidental questions of order, arising after a motion is made for the previous question, (or while acting under the previous question,) shall be decided, whether on appeal or otherwise, without debate.

When the ayes and noes shall be called for by three members present, every member within the bar of the Senate at the time the question was put shall declare openly and without debate his assent or dissent to the question. In taking the ayes and noes, and upon the call of the Senate, the names of the members shall be taken alphabetically. When the ayes and noes shall be taken upon any question, in pursuance of this rule, no member shall be permitted, under any circumstances whatever, to vote after the decision is announced from the Chair.

When any member is absent without the bar of the Senate when his name is called on the call of ayes and noes on any vote about to be taken, his vote shall not be received unless unanimously agreed to by the members present, nor shall a member be counted, on a division of a vote, who is absent without the bar of the Senate without leave.

RECONSIDERATION.

When a question has been once put and decided, it shall be in order for any member voting in the majority to move for the reconsideration thereof, and such motion shall take precedence of all other questions except a motion to adjourn; but no motion for the reconsideration of any vote shall be in order after the bill, resolution, message, report, amendment, or motion, upon which the vote was taken shall have gone out of the possession of the Senate; nor after the usual message shall have been sent from the Senate announcing its decision; nor shall any motion for a reconsideration of a vote making a final disposition of any bill or resolution be made on the day on which the same was taken; nor shall any question be reconsidered more than once.

No motion to reconsider shall be entertained at a later period than the next day of the actual session of the Senate after the vote to be reconsidered has been taken; nor then, unless notice of intention to move a reconsideration shall have been given by some Senator on the same day when such vote was taken; but when any vote shall be reconsidered the Senate may at the same time proceed to reconsider any previous vote or order in relation to the same bill or resolution without further notice. No notice of intention to move a reconsideration shall be given on the day next preceding the last day of the session.

If a Senator gives notice that he intends to move a reconsideration, the Secretary shall not report the bill or resolution to the Assembly till the reconsideration is disposed of, or the time for moving the same has expired.

JOURNAL.

The titles of bills and such parts thereof only as shall be affected by proposed amendments shall be inserted in the Journal.

The proceedings of the Senate, when not acting as Committee of the Whole, shall be entered on the Journal as concisely as possible, care being

taken to record a true and accurate account of the proceedings; but every vote of the Senate shall be entered on the Journal, and a brief statement of the contents of each petition, memorial, or paper, presented to the Senate, shall also be inserted in the Journal.

39.

RULES.

The Rules of the Senate shall be observed in Committee of the Whole, so far as may be applicable, except limiting the number of times of speaking, and except that the ayes and noes shall not be taken.

40.

In all cases not provided for by these rules, the Senate shall be governed by the law and practice as laid down in "Cushing's Law and Practice of Legislative Assemblies."

41.

No rule shall be suspended without the concurrence of two thirds of the members present, and no additional rule or amendment of a rule shall be made without giving at least one day's notice, and the concurrence of two thirds of the members present; *provided*, that no rule requiring unanimous consent shall be suspended by operation of this rule.

42.

POWERS OF THE PRESIDENT.

The rooms, passages, and buildings set apart for the use of the Senate shall be under the control and direction of the President of the Senate, and he shall have the control and direction of the Journals, papers, bills, etc., of the Senate; he shall see that all officers of the Senate perform their respective duties, and may assign places to Reporters.

43.

In case of a disturbance or disorderly conduct in the lobbies, the President (or Chairman of the Committee of the Whole Senate) shall have power to order the same to be cleared.

44.

The President shall have the right to name any member to perform the duties of the Chair, who is hereby vested, during such time, with all the powers of the President; but such substitute shall not lose the right of voting on any question while so presiding.

45.

SERGEANT-AT-ARMS.

A Sergeant-at-Arms shall be elected, to hold his office during the pleasure of the Senate, whose duty it shall be to attend the Senate during

its sittings, to execute the commands of the Senate from time to time, together with all such process issued by authority thereof as shall be directed to him by the President. The actual expenses of the Sergeant-at-Arms for every arrest, for each day's custody and releasement, and for travelling expenses for himself and special messenger, going and returning, shall be paid out of the Contingent Fund, and no other fees shall be paid him beyond his pay per diem. It shall be the duty of the Sergeant-at-Arms to keep the accounts for pay and mileage of members, to prepare checks, and if required so to do, draw the money on such checks for the members, (the same being previously signed by the President and indorsed by the member or person to whom the check is made,) and pay over the same to the member or person entitled thereto.

46.

MESSENGERS.

Messengers are introduced in any state of business, except while a question is being put, while the ayes and noes are calling, or while the ballots are counting.

47.

DOORKEEPER.

It shall be the duty of the Doorkeeper to prohibit all persons except Senators, Members of the Assembly, officers of the two Houses, and such Reporters as have seats assigned them by the President, from coming within the bar of the Senate, unless invited by the Senate through the President, and to arrest for contempt all persons outside the bar or in the gallery found engaged in loud conversation, or otherwise making a noise to the disturbance of the Senate.

48.

EXECUTIVE NOMINATIONS.

When nominations shall be sent by the Governor to the Senate for their confirmation, the same shall be at once acted upon, unless the Senate shall, by a majority vote, otherwise direct.

49.

PRINTING.

No bill or other matter shall be printed without first being specially ordered by the Senate, and the Sergeant-at-Arms shall certify to the reception by the Senate of all such printed matter, and the quantity, before payment shall be made, or bills audited; and maps accompanying documents shall not be printed under the general order to print without the special direction of the Senate.

Two hundred and forty (240) copies shall be printed of each document or other matter ordered, unless the Senate specially direct a different number.

SECRET SESSION.

On a motion made and seconded to close the doors of the Senate on the discussion of any business which may, in the opinion of the Senate, require secrecy, the President shall require all persons, except the members, Secretaries, Sergeant-at-Arms, and Doorkeeper, of the Senate, to withdraw, and during the discussion of said motion the doors shall remain closed, and every member and officer of the Senate shall keep secret all such matters, proceedings, and things whereof secrecy shall be enjoined by order of the Senate.

MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor :

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, December 4th, 1865.

To the Honorable Senate of California :

I herewith transmit to your honorable body my second biennial message.

There being but one copy of the several documents, I would respectfully ask that the Assembly be informed of their receipt by the Senate.

FRED'K F. LOW,
Governor.

GOVERNOR'S MESSAGE.

The following message and accompanying documents were received :

GENTLEMEN OF THE SENATE AND ASSEMBLY :

After an interval of two years, you, as the representatives of the people, are again assembled for the purpose of enacting such laws as the public interests may seem to require, and such as may be necessary to maintain individual rights; to secure public order and tranquillity, and to promote the well being and happiness of the people of this State. To the end that you may be placed in possession of information to aid you in your legislative duties, the Constitution requires the Executive to communicate to the Legislature at the beginning of each session the condition of the State, and to make such suggestions and recommendations as may appear to be for the public good.

FINANCES.

The financial condition of the State is highly satisfactory, and the speedy liquidation of the public debt is now an assured fact, if prudence and economy be practiced by the Legislature in the matter of appropriations. During the last two years the demands upon the Treasury have been large, to liquidate claims of an extraordinary character—bounty and extra pay due to volunteers—in addition to the ordinary expenses of the State. The Legislature at its last session reduced the rate of taxation for the General Fund, eighteen cents on the one hundred dollars of assessable property, yet notwithstanding this, and the extra drain alluded to above, all warrants have been paid in cash when presented. There is now a large balance in the Treasury, with nearly the entire tax of the present year still to be paid in.

From the reports of the Controller and Treasurer, which accompany this, you will be able to ascertain the operations of their respective departments during the past two years. It will be seen from these reports that the total funded debt of the State is five million one hundred and twenty-six thousand five hundred dollars, (\$5,126,500.) This amount covers the entire debt of the State with the exception of warrants drawn upon the Capitol Fund, which will be paid from taxes already collected for the current fiscal year, and swamp land warrants, drawn for reclamation of lands in particular districts, which must be paid from the proceeds of sales of lands and taxes levied in those particular districts. Neither of these classes of warrants can in any proper sense be counted a State debt.

In January, eighteen hundred and sixty-four, in a special message to the Legislature, I estimated the debt and liabilities of the State to be five million three hundred and sixty-five thousand six hundred and forty dollars and seventy-one cents, (\$5,365,640 71,) from which should be deducted an appropriation made for the deaf, dumb, and blind, of seventy-five thousand dollars, (\$75,000,) which was not expended; this left the sum of five million two hundred and ninety thousand six hundred and forty dollars and seventy-one cents (\$5,290,640 71) as the actual indebtedness of the State at that date. Since then there have been paid for extraordinary purposes:

For relief and bounty to California volunteers.....	\$2,036,106 62
For constructing additional buildings at Insane Asylum...	184,165 28
For constructing additional buildings at State Prison.....	78,233 89
For purchase of land and erection of new buildings for the deaf, dumb, and blind.....	50,000 00
For amount expended in construction of State Capitol.....	426,357 12
For redemption of old Indian War Bonds, not included in the statement of debt.....	32,500 00
	<hr/> \$2,807,362 91

Amounting in all to the sum of two million eight hundred and seven thousand three hundred and sixty-two dollars and ninety-one cents, (\$2,807,362 91). Notwithstanding these payments for extraordinary purposes, the total debt is now less by one hundred and sixty-four thousand one hundred and forty dollars and seventy-one cents (\$164,140 71) than it was four years ago. As a large proportion of these extraordinary demands upon the Treasury grew out of the late civil war, no provision need be made for such claims in the future. With the exercise, therefore, of ordinary prudence by the law-making power, the annual tax for the General Fund can be further reduced ten cents on the one hundred dollars. The resources, applicable to the payment of interest, and the creation of Sinking Funds, will fully liquidate the entire debt of the State within the next ten years.

The Controller makes valuable suggestions concerning the equalization of the assessments of property throughout the State by a Board appointed for that purpose, and in regard to lessening the cost of assessing and collecting the revenue of the State, which I commend to your consideration, that the evils complained of may be remedied.

SECRETARY OF STATE.

From the report of the Secretary of State you will obtain all the necessary information concerning his department. Under the supervision of the present incumbent of that office the scattered archives of the State have been gathered together, arranged, filed, and labelled in an appropriate manner. The official records of the State, from its organization, now present an orderly appearance, and it should be made the duty of all future incumbents of that office to cause the documents and papers of which he is the custodian to be filed in like manner and form.

The Secretary recommends that copies of the Great Registers of all the counties be lodged in his office; the suggestion appears to me wise and proper, and I fully concur therein. He also recommends that the County Auditor of each county be required annually to prepare a statement, which shall be verified by his oath, setting forth the financial condition of his county; stating in detail the amount of funded debt, scrip, or warrants, and all indebtedness of every kind that may be outstanding, together with the cash on hand and the rate of taxation for county purposes. These statements should, I think, be filed in the office of the Controller of State, and embraced in the biennial report of that officer.

I commend this matter to the especial attention of the Legislature, and trust that it may be favorably received and acted upon.

ATTORNEY-GENERAL.

For correct and detailed information relative to such litigation as the State is interested in, I refer you to the report of the Attorney-General, in whom the State has found a faithful officer, and criminals and those who would deprive the State of its property without giving adequate compensation, a determined opponent.

The suggestions and recommendations contained in the report I commend to your favorable consideration, particularly those referring to the Practice Act. The recommendation that any proposed amendments to those laws be first submitted to the Judges of the Supreme Court was made to and acted upon, by the last Legislature, with good results. I trust the present Legislature will follow the prudent example thus set.

The opinions expressed by the Attorney-General in regard to the giving of evidence in Courts of justice are sound, and I fully concur in the wisdom thereof. Open the door wide for the admission of evidence, and let the jury be allowed unrestricted latitude in judging of its *quality*. In a large majority of cases, where criminals are convicted of murder in the first degree—the highest crime known to the law—the verdict of the jury is found upon circumstantial evidence, either wholly or in part. If the barking of a dog may be considered in a chain of evidence which is to deprive a mortal of life, what reason can be assigned for excluding any human being from the witness stand in cases of assault and battery? The age when it was supposed a person could not be relied upon to testify to the truth unless his religious belief accorded with public sentiment, and when it was supposed a butcher valued human life too lightly to sit on a jury, has passed away; and I earnestly invoke your attention to the matter herein suggested, that all relics of the dark ages may be swept from the statute books.

STATE LANDS.

The report of the Surveyor-General contains complete information concerning the lands belonging to the State, a subject of great impor-

tance to the people, and one of which Legislatures hitherto seem to have had a very imperfect idea. The title, vested in the State by various Acts of Congress to millions of acres of school lands, as well as to the swamp and overflowed lands within its boundaries, has not until the present year been officially recognized by the Executive Department of the Federal Government, in any form which would give assurance to purchasers from the State that a valid and complete title could be obtained. The Act of Congress so fully described in the report, passed at the last session, and the intelligent rulings and instructions of the Commissioner of the General Land Office, promise an early settlement of these difficulties, provided the State authorities use due diligence in pressing the matter to final consummation. The amounts of land already listed over to the State under the several Congressional grants are as follows:

Five Hundred Thousand Acre Grant.....	201,318 ⁸⁵ / ₁₀₀ acres
Swamp Land Grant.....	324,678 ⁹² / ₁₀₀ acres
Public Building Grant.....	1,283 ⁵⁰ / ₁₀₀ acres

Lists have been prepared and forwarded for about one million acres more, for which, title will probably be passed to the State within a few months.

For the confused state of our land matters, the State is largely responsible, consequent upon the passage of Acts authorizing sales of lands in manner and form contrary to the rules and regulations laid down by the Land Department. Indeed it would seem that former Legislatures had endeavored, by the various Acts relative to the sale of land, to devise and carry into execution, plans "how not to do it." I earnestly invoke your careful attention to the suggestions contained in the report touching the repeal and modification of certain land laws of the State, calculated to obviate these difficulties.

SWAMP AND OVERFLOWED LANDS.

The swamp and overflowed lands were granted by the Act of Congress of September twenty-eighth, eighteen hundred and fifty, to the States in which they were situated, on the condition, that the proceeds of the sales should be exclusively devoted to the reclamation of the lands. This State has made various experiments, trying to devise a proper plan for doing this work, but as yet these experiments must, I think, be set down as failures. The modes adopted for reclamation have proven to be unwise and inadequate for the purpose, and the money expended has in the main been squandered. No comprehensive plan for the reclamation of these lands has ever been devised, and without such a plan, all attempts at reclamation will meet with but partial success, if they do not result in complete failures. Under existing laws, the portions of the State in which the swamp lands are situated are divided into districts. The Board of Supervisors of the county, in which the larger proportion of the land in any particular district is located, are made Commissioners for reclamation, and the proceeds of all lands sold, and all reclamation taxes levied, within such district, are paid into the State Treasury to the credit of the District Fund, to be drawn against for payment of reclamation. It is also provided in the present law that

all the swamp land unsold, and all reclamation taxes *as soon as they are levied* shall be considered *assets*, and the Commissioners are authorized to contract liabilities to the full amount of the value of these unsold lands at the rate of one dollar per acre, and the taxes uncollected.

The result of this is, that nearly every district is burdened with a large debt, and Controller's warrants of this character have been selling at a large discount, in some instances below half of their par value. That such a state of things should not be allowed to continue seems certain, and yet under existing circumstances it is not easy to suggest the proper remedy. The only feasible plan that presents itself for adoption by the Legislature at this time is, to repeal so much of the law as constitutes unsold lands and uncollected taxes assets; which will prohibit the Boards of Supervisors from contracting liabilities for reclamation beyond the proceeds of *lands sold and taxes collected*. The credit of the State, as well as the protection of such persons as are interested in the ownership of these lands, require that some such remedy as this be applied at once.

AGRICULTURAL COLLEGE GRANT.

The limitations and restrictions contained in the Agricultural College grant of one hundred and fifty thousand acres, prohibiting the State from making selections of lands other than those that are subject to private entry at one dollar and twenty-five cents per acre, practically nullifies the grant. Either relief must be sought from Congress in the way of repeal of the restrictions, or efforts must be made to induce the President to offer a large amount of land at public sale, if we are to realize anything like the estimated value of this donation.

SALT MARSH AND TIDE LANDS.

The several Acts of the Legislature authorizing the sale of this class of lands prohibit the disposition of such as are located within five miles of San Francisco and Oakland, and one and a half miles of the State Prison at San Quentin. Early in the year eighteen hundred and sixty-four, certain parties caused surveys to be made of large tracts of these lands in the vicinity of San Francisco and Oakland, obtained certificates as to the proper location, made payment of *one dollar per acre*, and through the Surveyor-General applied for patents. These patents I declined to issue, upon the ground that the lands thus located were within the reservations mentioned in the several Acts. The Attorney-General, in his report, presents a detail of the attempts of claimants to obtain possession of portions of these lands, and the legal proceedings instituted for protecting the interests of the State.

The decision of the Supreme Court of the United States, in the case of *O'Neil v. Kirkpatrick*, demonstrates beyond peradventure, that the locations are invalid, and that the parties have neither legal nor equitable title. I therefore recommend that the State Harbor Commissioners be authorized and instructed, to cause a survey to be made by a Board of competent engineers and surveyors, of the tide lands between the present water front of San Francisco and Hunter's Point, which can be made available for business purposes without injury to navigation, and with due regard to the drainage of the city. Upon completion of the survey, maps should be made, dividing the property into lots of convenient size, and after advertising for a proper length of time, these lots should be sold at auction to the highest bidder for cash or on credit; one half of the net

proceeds to go into the State School Fund, to be invested in the same manner as the proceeds of sales of school lands, and the other moiety be paid into the State Treasury, to the credit of the San Francisco Harbor Protection Fund. If this be done, the lands will be occupied and improved as rapidly as the wants of business will require them; a permanent water front will be established; education will be promoted, and an increased impetus given to the building of the sea wall now in course of construction; and, moreover, a perplexing and corrupting question will be removed from the halls of legislation. All this will be accomplished without injury or damage to any one, except those who, by legal technicalities and quibbles, attempted to get possession of valuable property of the State without giving any equivalent in return.

I trust there will be no delay in making the appropriations asked for by the Surveyor-General, to pay for extra clerk hire and for services rendered by the United States land officers, mentioned in his report.

STATE CAPITOL.

Since my last biennial message, satisfactory progress has been made in the construction of the new State Capitol. The Legislature at its last session doubled the annual tax—making it one mill—which has greatly facilitated the progress of the work. The prospect of a completion of the work at no distant day, is now assured, if the present annual appropriation be continued, of the advisability of which I entertain no doubt.

The original design of the building, contemplated the construction of the first or basement story in granite, and all above that, in brick and iron. The negative action of the last Legislature, would have perhaps warranted the Commissioners in changing this original design, and in continuing the use of granite for all the exterior walls. This change, which the Commissioners did not feel justified in making, would have involved a largely increased outlay, and consumed many years additional time in the construction of the building. If there should be found persons who complain at the action of the Commissioners, I desire to assume and bear my full share of the responsibility as one of the members of the Board.

Unusual progress has been made upon the building during the year eighteen hundred and sixty-seven, and I trust no material change will be made in the present design or mode of construction. If the Commissioners are allowed to carry out the plan of action they have adopted, the Legislature of eighteen hundred and sixty-nine and seventy should find accommodations in the new building, and the appropriations of the two following years should advance the structure and surrounding grounds to entire completion.

INSANE ASYLUM.

The reports of the Directors, Medical Visitors, and Resident Physician of the Insane Asylum, herewith transmitted, are replete with interesting facts and statistics bearing upon the management of that institution.

It is painful to observe that the carefully prepared tables of the Resident Physician, show a constant increase in the number of this unfortunate class of persons, greatly disproportioned to the supposed increase of the whole population of the State. That officer discusses in his report the causes of insanity, and draws largely upon the reports and writings

of eminent men, on this terrible malady. His conclusions are suggestive and instructive, and I commend his report to the careful perusal of members of the Legislature, as well as to all who sympathize with the afflicted and are interested in the well-being of society.

The management of the Asylum, during the two years just past, has been unexceptionable. The funds appropriated for the support of this charity, have been wisely and economically expended, and humanity, kindness and skill, have been displayed by those to whom the care of this class of unfortunates has been committed. The Directors, in view of the annual increase of patients, ask that the appropriations for the next two years may be increased two thousand dollars per month, making the appropriation twelve thousand dollars per month instead of ten thousand dollars, as at present. They also earnestly recommend that the annual tax of three cents upon the one hundred dollars of taxable property in the State be continued, to enable them to increase the accommodations of the patients. The request made to several preceding Legislatures is repeated, that each county should be obliged to make provision for its paupers, which would relieve the Asylum from the care of many persons who find their way thither under the existing order of things.

STATE PRISON.

The Board of Directors of the State Prison, deeming it necessary to include the operations of that institution for the month of November in their report, it will not be presented to the Legislature at this time; nor have I the data which it will contain on which to base specific recommendations. My general knowledge, however, of the workings of the Prison, gathered from actual observation during my term of office, enables me to give you some general statements concerning it.

During the four years, in which by virtue of my office, I have shared in its general control and direction, every effort has been made by the Board of Directors to safely keep the inmates; to practice the greatest economy in the cost of maintenance compatible with the health and comfort of the prisoners; to see that the sick were properly cared for; to utilize the labor of the prisoners in such manner as to increase their earnings as much as possible, and to do all that the scant opportunity permitted, to make the Prison a reformatory as well as a penal institution. I am happy in being able to say that in all these measures, success, complete or partial, has been attained. The prisoners have been securely kept; the expenses, though large, have been indispensably necessary; no complaints have reached me of inattention to the sick; the receipts from convict labor have been considerably increased over those of former years, and some improvement has been made in the discipline of the Prison. While this is all true, there is great need of further reforms before it will be what the good of society requires. To accomplish these, a considerable expenditure of money is necessary—more than the Legislature will probably be willing to appropriate or the people to sanction.

With seven hundred prisoners already there, and the number constantly increasing, the accommodations provided for the inmates are wholly inadequate. The shops are so badly constructed and illy arranged, that it is impossible to find contractors to employ the labor at prices which would appear just and reasonable. Hence the Directors have been obliged to accept such prices as contractors would be willing to pay, and even then, there has been a surplus of prisoners for whom

no employment could be found, except in the manufacture of bricks during the dry season. With the present quarters, it is practically impossible to classify the convicts, and until this is done, all attempts at reformation will meet with but partial success.

The present Board have during their term, built three hundred and ninety-six new cells, which have afforded some relief, but the remarkable increase in the number of prisoners, has almost kept pace with the increased accommodations, so that at the end of four years, the Prison is but little better off in this regard than at the beginning. The result of my observations and investigations into this matter leads to the belief, and so believing I give it as my deliberate judgment, that no radical reform can be made in the Prison as it now exists; and the Legislature should direct itself to the task of seeking out and applying the proper remedies. My opinion is, that steps should be taken to build a House of Correction at some suitable place, to which the better class of prisoners—young men, boys, and those who are under sentence for the first offence—may be removed. The shops in the old prison should be taken down before they fall down, and commodious ones, well lighted and ventilated, erected in their places. If this be done, there will be competition among contractors for the labor, and better prices will be obtained; the prisoners can be kept constantly at work under wholesome regulations, and good order and discipline will be promoted in every branch of the institution. Were I to make a suggestion as to the proper place to locate a House of Correction, I should name the eastern end of Angel Island, provided the consent of the United States could be obtained, of which I have little doubt.

The workings of the Act of eighteen hundred and sixty-four, allowing credits to prisoners for good behavior, and for faithful attention to the duties assigned them, have proved highly satisfactory. Many States have adopted the same plan, and Congress, at its last session, enacted, that United States prisoners should have similar credits.

It has been for some years a well settled belief in the minds of those having the best opportunities for acquiring information, that a large number of prisoners at San Quentin were suffering imprisonment, under unjust or unreasonably long sentences, and that the good of the State and of the prisoners so confined, would be promoted by their release. At the last session of the Legislature a bill was introduced, appointing a commission to inquire into the facts, and to take such action as might seem just and proper. The bill failed to become a law, not because any doubt existed as to the facts set forth, but for the reason, as it appeared from the discussion, that the matter could with more propriety be entrusted to the Executive, whose duty it was to correct errors and abuses of the nature alluded to. In view of this, I have within the last two years caused investigations to be made into a very large number of cases, many of which have been found deserving of clemency; this will account for some increase in the number of pardons issued over that of the previous two years.

It is a noteworthy fact, and one that affords me much satisfaction, that of all those to whom executive clemency has been extended during my term of office, the whole number have, with a single exception, given evidence that their conduct in the future will be exemplary.

The present law, constituting the Lieutenant-Governor, Resident Director and Warden of the Prison, at his option, during the recess of the Legislature, is unwise, unjust to that officer, and of no possible advantage to the State. Although not made compulsory, the practice

obtained heretofore, and the regulations at the Prison, seem to render his residence there imperative, under existing laws. I am not aware of any perceptible connection between the duties of a presiding officer of the highest deliberative body in the State, and those of a jailor or warden of a prison. I therefore recommend the modification of the present law, so as to relieve the Lieutenant-Governor from this onerous duty.

REFORM SCHOOL.

The reports of the Trustees and Superintendent of the Reform School at Marysville, accompany this. The number of youth in that institution at the date of the report was forty-three. The largest number of inmates reported at any time during the two years was fifty-four. The appropriations for the support of the Reform School amount to ten thousand dollars per year; the Trustees ask for thirty thousand dollars for the next two years, in order that they may be placed in funds to make improvements in the building, which seem to be indispensably necessary. The affairs of the school have been conducted in a highly creditable manner by those connected with it, and with the greatest possible economy. The school has been in existence long enough to test the practical operation of such an institution and enable a just estimate to be made of the good accomplished, as compared with the expense incurred. The result of my investigation is, that either there are not a sufficient number of youth in the State, whose ill deeds would justly consign them to such an institution, or the several county authorities are derelict in their duty. It is believed the latter is the true cause of the small number of inmates. But whatever be the cause, the facts are, that the benefits heretofore derived have not been commensurate with the outlay.

At the last session a bill was passed the day before adjournment, abolishing the State Reform School and providing for the transfer of the inmates to the Industrial School of San Francisco. It made no provision for the care and sale of the property belonging to the State, and in many other particulars the bill seemed defective for the proper attainment of the object desired. There being no time nor opportunity for modifying the bill, or for the passage of a supplemental one, I felt compelled to withhold my sanction.

It will be the duty of the Legislature to give attention to this subject, and if it shall be decided to abolish the institution, an Act for that purpose should be passed before the end of the session, which should provide for the disposition of property now belonging to the State and used by the school.

MILITIA.

Since the meeting of the last Legislature the entire militia force of the State has been reorganized in accordance with the provisions of the Act of April second, eighteen hundred and sixty-six—the new organization taking the name of the California National Guard.

For particulars in regard to the number, location, and strength of regiments, battalions and companies, I have to refer you to the report of the Adjutant-General, which you will receive herewith. The report contains valuable information and suggestions which commend themselves to your favorable consideration.

COMMON SCHOOLS.

As common schools lie at the very foundation of a republican government, their maintenance and care should be found among the first in importance of the varied duties of the representatives of the people. The report of the Superintendent of Public Instruction now transmitted to you, is a document worthy of a careful perusal. The statistical information contained in this report is valuable, and his suggestions and recommendations deserving of your consideration. From his statistics I gather the following:

The whole number of children in the State between the ages of five and fifteen years, is ninety-four thousand two hundred and thirteen (94,213,) of which number, ninety-two thousand two hundred and seventy-three (92,273) are white, seven hundred and nine (709) negro, and twelve hundred and thirty-one (1231) are Indians. No Indian children are enumerated except those under the guardianship of white persons. There are in the State, according to this census, fifty-five thousand and ninety-three (55,093) children under five years of age, which makes the total number under fifteen years one hundred and forty-nine thousand three hundred and six (149,306.) Of the number entitled to the privileges of schools, fifty-four thousand seven hundred and twenty six (54,726) have, during the present year, been in attendance upon the public schools, fourteen thousand and twenty-six (14,026) have attended private schools, and twenty-one thousand four hundred and eleven (21,411) have attended no school. There are one thousand and eighty-three (1,083) schools, maintained on an average, over seven months in the year, in which one thousand three hundred and eighty-nine (1,389) teachers are employed. The number of school houses in the State, is six hundred and sixteen (616,) of which number one hundred and six (106) have been erected in the year eighteen hundred and sixty-seven. During the present year, one million one hundred and sixty-three thousand three hundred and forty-eight dollars and eighty-one cents (\$1,163,348 81) have been expended for the maintenance of schools, of which sum, six hundred and ninety-six thousand one hundred and ten dollars and twenty-eight cents (\$696,110 28) were paid for teachers' salaries, and two hundred and thirty-eight thousand and seventy dollars and sixty-four cents (\$238,070 64) were expended in the purchase of sites, erection of school houses, repairs, etc.

During the four years just passed, the advancement in the cause of education in California has been exceedingly gratifying. The increase in the number attending public schools now, over those who attended in eighteen hundred and sixty-three, exceeds twenty-five thousand, a gain of eighty-six per cent in four years. Five thousand have been added to the private schools, a gain of fifty-three per cent. The number attending no school is only one thousand more now than then, a gain of scarcely six per cent. It is to be hoped that future years will mark a notable decrease in the number last named. During my term of office, the number of schools have been increased two hundred and twenty-nine (229,) employing four hundred and seventy (470) additional teachers; and the schools have been kept open an average of two additional months each year.

The total expenditures in eighteen hundred and sixty-three, were four hundred and eighty-three thousand four hundred and seven dollars and forty-nine cents, (\$483,407 49,) against one million one hundred and sixty-three thousand three hundred and forty-eight dollars and eighty-one cents, (\$1,163,348 81,) in eighteen hundred and sixty-seven, a gain

of one hundred and forty per cent. For these satisfactory results we are greatly indebted to the zeal and well directed efforts of the State Superintendent of Public Instruction, and to the wise legislation, that has of late years marked our public councils. Let us hope that the progress already made in this great cause will receive an additional impetus from those to whose care it will be confided, to the end that we may not be called upon to deplore any backward step.

The school law now on our statute books, is believed to be well adapted to the wants of the State, and I trust that no attempt to repeal or modify it, in any essential particular, will be made, and if made, that it will be unsuccessful. Schemes have been projected, which may again be renewed, to destroy practically the excellent system of education which has attained so vigorous a growth in so short a time, and upon its ruins, to build up a new system based upon sectarian beliefs and religious bigotries. The common school system, having for its object the education of the children of the State, in all branches that pertain to the practical affairs of life, and, while inculcating in the minds of the pupils the highest morality, leaving them at liberty to embrace and enjoy any religious belief which may be preferred, has stood the test of experience in the older States, since the formation of the Government. It is too well grounded in the hearts and affections of the people to be lightly considered or tampered with by any legislative body claiming to represent the people.

On the first day of November, there were in the State Treasury, bonds of the State amounting to seven hundred and forty-two thousand dollars (\$742,000) to the credit of the School Fund, yielding an annual revenue of fifty-one thousand nine hundred and forty dollars (\$51,940.) this fund has been increased twenty thousand dollars (\$20,000) since the report of the Treasurer was made. The public lands donated to the State for school purposes, will, when disposed of, create an endowment for education worthy of the liberal and enlightened age in which we live. To you, the people look to jealously guard and wisely administer this legacy.

NORMAL SCHOOL.

The Normal School, which has proven such an admirable auxiliary in the older States to the cause of education, was four years ago an experiment in California. It is now in the full tide of its usefulness, and the schools are already reaping the advantage of having teachers carefully and thoroughly trained in this school.

While bestowing on it the highest praise for the good already accomplished, I earnestly commend it to you, as deserving of liberal support in the future.

AGRICULTURAL COLLEGE.

The report of the Board of Directors will give you information as to what has been done by them, under the Act of March thirty-first, eighteen hundred and sixty-six, to establish an Agricultural, Mining and Mechanical Arts College.

After a careful review of this whole matter, I am of the opinion that the law providing for the establishment of this institution should be entirely remodelled, and the aim and intent of the Legislature more clearly defined. There can be no doubt, in the mind of any person who has studied this subject, that a great want in California is an institution of learning of a high order, in which the youth of the State can be taught

the higher branches at a moderate cost. It is also apparent that the means accruing from the grant of land to the State for an Agricultural College, and also that for a "Seminary of Learning," will not be sufficient to establish and maintain a school or college, without direct aid from the State, or from individuals, or both. The restrictions contained in the Act of Congress granting lands for an Agricultural College, render it practically impossible to make the proceeds available for some time to come.

Under these circumstances, the advisable course for the State to pursue, is, to organize and put into successful operation at the earliest moment practicable, a State University upon the site selected by the Directors. The agricultural department should occupy a prominent place in the general plan of the University, and so should mining and the mechanic arts; but in its general characteristics it should combine all the higher branches usually taught in colleges.

The State University of Michigan, is by far the most successful institution of the kind in the United States. This has, in addition to the undergraduate department, schools of law, medicine, and general science. In eighteen hundred and sixty-six the total number of students was twelve hundred and five, (1,205,) of whom four hundred and sixty-seven (467) were in the medical department, three hundred and eighty-five (385) were in the law department, and three hundred and fifty-three (353) were in the department of general science. In eighteen hundred and sixty-seven the whole number had increased to between thirteen hundred and fourteen hundred. The tuition is free; the only charges being twenty-five dollars as a matriculation fee and an annual charge of ten dollars each for incidental expenses. The expenditures of the University for the year ending June thirtieth, eighteen hundred and sixty-six, were seventy-six thousand four hundred and twenty-two dollars and seventy-three cents, (\$76,422 73.) to defray which, seventeen thousand six hundred and sixty dollars (\$17,660) were received from students' fees, and the balance came from the State. From these facts and figures it is plain to be seen, how much good can be accomplished with a moderate expenditure of money.

The number of young men in California is increasing rapidly, and ample means should be provided them, for acquiring a liberal education. The State is in a condition to supply this want, and it will be neglect, little less than criminal, if the Legislature fails to do it. I would recommend that action be taken in the premises to the following effect:

First—Remodel the present law or enact an entirely new one, so as to provide for establishing a State University upon the general plan adopted in Michigan, to the support of which the proceeds of the seventy-two sections of land donated to the State for a "Seminary of Learning," and the one hundred and fifty thousand acres donated by Congress for an Agricultural College, shall be applied, according to the tenor of the Acts making the donation.

Second—Select a Board of Directors for its control and management, who live near the site of the proposed institution, so that, a portion of their time can be given without expense; and let them be men of the highest character and standing in the community.

Third—Authorize the Governor, Controller, and Surveyor-General to cause an examination to be made into the accounts of the School Land and Seminary Funds, and adjust them by transferring from the School Fund to the Seminary Fund the amount of money or bonds that may be due the latter by the former.

Fourth—Let the Legislature make a direct appropriation of money sufficient to erect buildings adequate to the wants of such an institution.

DEAF, DUMB AND BLIND.

The institution for the care and education of the deaf, dumb and blind, has performed its mission in the cause of humanity and charity, and creditably filled the place assigned to it in the organization of society. The report of the Directors and the Principal, will be laid before you, and I refer you thereto for detailed information.

Under and by virtue of the Act of March thirty-first, eighteen hundred and sixty-six, the Commissioners named by the Legislature, together with the Directors, have purchased a tract of land in Alameda County, on which a suitable building is in course of erection, which will be, when completed, admirably adapted to the purposes for which it is designed, and a credit to the State.

The location appears to have been made with an eye single to the wants of the institution, and it is a matter of congratulation that one public enterprise is being carried forward without entangling it in geographical disputes or local jealousies; in this regard, it gives hope for improvement in the future.

I commend this noble charity to your fostering care.

STATE HARBOR COMMISSION.

The object sought in the creation of the Board of State Harbor Commissioners, seems to have been clearly kept in view by them, and the net results of their operations thus far greatly exceed the anticipations of the most sanguine. The reports are full and set forth the results accomplished during the last two years in a clear and business like form. From them I condense the following, as the receipts and disbursements of the commission for two years ending November first, eighteen hundred and sixty-seven :

Receipts.	Amounts.
Received from current revenues of various wharves.....	\$477,268 91
Received from damages from Pacific, Broadway, Central, and Market street wharves.....	50,000 00
Amount retained in the hands of the Board—it having been paid in under protest.....	3,013 00
Received from Ferry Company for dredging.....	1,868 25
	\$531,650 16

Disbursements.	Amounts.
For repairs of wharves.....	\$66,468 37
For current expenses of wharves.....	42,319 67
For dredging slips.....	54,406 50
For expense account of office.....	4,852 70
For office furniture.....	330 62
For legal counsel.....	6,000 00
For legal expenses.....	793 00
For salary of Commissioners and Secretary.....	22,800 00
For constructing outer half of East street, between Mar- ket and Clay streets.....	13,622 83
For purchase of Oakland and San Antonio Ferry privilege.	27,500 00
For plans, etc., for sea wall.....	3,873 50
	<hr/>
	\$242,967 19
Net balance.....	288,682 97
	<hr/>
	\$531,650 16

Showing the net receipts, over and above all expenses, to have been for the period named, two hundred and eighty-eight thousand six hundred and eighty-two dollars and ninety-seven cents. The balances in the State Treasury, November first, eighteen hundred and sixty-seven, as the result of the operations of this Board, were as follows :

To the credit of the Wharf and Dock Fund.....	\$39,383 20
To the credit of the Harbor Protection Fund.....	334,547 55
	<hr/>
	\$373,930 75

The Commissioners estimate that the receipts from all sources for the next two years will be four hundred and eighty thousand dollars, of which amount not more than one hundred and sixty thousand dollars will be required to pay all current expenses, repairs of wharves, dredging, etc., leaving a balance of three hundred and twenty thousand dollars to be expended in the construction of the sea wall.

As will be seen by the report, the Commissioners have adopted plans for a sea wall, which it is believed will be substantial as well as economical; and contracts have been entered into for the construction of one section, (seven hundred and forty-three feet,) at a cost of two hundred and six thousand five hundred and fifty-four dollars, (\$206,554;) also for the construction of the embankment of another section, (six hundred and fifty feet,) at a cost of seventy-two thousand eight hundred dollars, (\$72,800); the contractor agreeing, at the option of the Board, to finish the superstructure for the sum of sixty-eight thousand two hundred and fifty dollars additional. This section, when completed, will cost one hundred and forty-one thousand and fifty dollars, (\$141,050.)

If the foregoing statements constitute reliable data upon which to base estimates for the future, the net receipts, after paying all necessary expenses, will build a substantial sea wall along the city front, from the foot of Chestnut street to the foot of Harrison street, within ten years.

GEOLOGICAL SURVEY.

A communication from the State Geologist, transmitted herewith, presents in detail the work he has accomplished during two years.

The following sums have been appropriated for this work since its commencement:

At the passage of the original Act, organizing the survey in 1860.....	\$20,000 00
By the Legislature in 1861.....	15,000 00
By the Legislature in 1862.....	15,000 00
By the Legislature in 1863.....	20,000 00
By the Legislature in 1864.....	25,000 00
By the Legislature in 1866.....	30,000 00
	<hr/>
	\$125,000 00

The last two amounts being for two years each, and embracing the sum of twenty-one thousand dollars (\$21,000) for engraving and publication of reports. The amount which will have been expended at the end of the current year, is one hundred and thirty-four thousand and sixty-nine dollars and seventy-seven cents (\$134,069 77,) showing a deficiency over and above the amount appropriated of eight thousand four hundred and sixty-nine dollars and seventy-seven cents (\$8,469 77.)

Professor Whitney estimates, that should nothing further be done in the field during the next six months, it would require six thousand five hundred dollars (\$6,500) to plot and write up the field work already on hand, and he asks that an appropriation of fifteen thousand dollars (\$15,000) be inserted in the deficiency bill, that it may be made available at as early a date as possible to keep up the work until June thirtieth, eighteen hundred and sixty-eight, the end of the present fiscal year. The Professor adds: "Should this not be passed, it will be my duty to dismiss all my assistants, and to discontinue the survey at once, a step which I should greatly regret having to do, as there is much valuable matter in my hands, either in process of publication or nearly ready to go to the printer and engraver."

Four volumes of reports have been published, and others are in various stages of advancement. The drawing and engraving for the volumes of birds and fishes are going on steadily, that of the birds being so near completion that the work can go to press immediately. The sheets of the map of Central California are nearly ready for the engraver, and the work on maps of other portions of the State is being pushed forward rapidly.

It will be seen from the statement of the Geologist that a very large amount of work has been performed in the two years with a small expenditure. I trust that the appropriations for the next two years

may be considerably increased, that the work may be hastened as rapidly as possible. The plan adopted for this work is comprehensive, and should, by all means, be carried out. When completed, these reports will contain information which will be of incalculable value to the State, and, at the same time, contribute to the cause of science the results of researches unrivalled by any in the known world.

I earnestly recommend this great work to your consideration, in the confident trust that increased means will be afforded in the future to carry it forward according to the plan heretofore adopted.

YOSEMITE VALLEY AND MARIPOSA BIG TREE GROVE.

The commission appointed to manage and control the Yosemite Valley and Mariposa Big Tree Grove present their report herewith, and I respectfully ask that you will give the matter due consideration, and trust the recommendation of the Commissioners may be favorably entertained and acted upon.

AMENDMENTS TO THE STATE CONSTITUTION.

The Legislature at its sixteenth session passed certain resolutions proposing amendments to the Constitution of this State, in the manner and form provided for in section one, Article X, of the Constitution. These proposed amendments will be found in the volume of statutes of eighteen hundred sixty-five and six. The requisite publication has been made, and they will now come before you for adoption or rejection. If your action should be favorable, the proposed amendments will then be submitted to a popular vote, at such time and in such manner as you may prescribe.

There is evidently an unintentional error in the original draft, or a clerical error in the copy of that portion of the resolutions relating to Article IX. As it now reads, the Superintendent of Public Instruction will be elected at the general election in eighteen hundred and sixty-nine, while it is apparent that the amendment cannot possibly become a part of the Constitution until after that date; nor would it be policy to elect this officer in a year different from that fixed for the election of other State officers.

Experience has demonstrated, I think, that the special judicial election is productive of no substantial good. It is an additional burden to the people, and should be done away with.

The additional section proposed to be added to Article I of the Constitution, reads as follows:

“SEC. 22. The Legislature shall have no power to make an appropriation of money for any purpose for a longer period than two years.”

This amendment, proper and just in itself, is undoubtedly demanded by a very large majority of the people. The Constitution of the United States contains a similar limitation upon the power of Congress, and the same is true of many States. If this amendment be adopted, the Legislature will, in the future, be relieved from many vexatious questions which would otherwise be brought forward, and the public Treasury will have an additional safeguard. I earnestly commend this matter to your consideration, and trust it may meet favorable action at your hands.

AMENDMENTS TO THE CONSTITUTION OF THE UNITED STATES.

With this I transmit a certified copy of a joint resolution of Congress, proposing an amendment to the Constitution of the United States, which is in the following words :

“Joint resolution proposing an amendment to the Constitution of the United States.

“Be it resolved by the Senate and House of Representatives of the United States of America, in Congress assembled, (two thirds of both Houses concurring,) That the following article be proposed to the Legislatures of the several States as an amendment to the Constitution of the United States, which, when ratified by three fourths of said Legislatures, shall be valid as part of the Constitution, namely :

“ARTICLE XIV.

“SECTION 1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property, without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.

“SEC. 2. Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for President and Vice-President of the United States, Representatives in Congress, the executive and judicial officers of a State, or the members of the Legislature thereof, is denied to any of the male inhabitants of such State, being twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State.

“SEC. 3. No person shall be a Senator or Representative in Congress, or elector of President and Vice-President, or hold any office, civil or military, under the United States, or under any State, who, having previously taken an oath, as a member of Congress, or as an officer of the United States, or as a member of any State Legislature, or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid or comfort to the enemies thereof. But Congress may, by a vote of two thirds of each House, remove such disability.

“SEC. 4. The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection or rebellion, shall not be questioned. But neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave; but all such debts, obligations, and claims shall be held illegal and void.

"SEC. 5. The Congress shall have power to enforce, by appropriate legislation, the provisions of this article."

By the first section it is provided that all persons born or naturalized in the United States, and subject to its jurisdiction, are citizens of the United States and of the State wherein they reside, and States are prohibited from abridging the privileges and immunities of citizens, or depriving them of life, liberty, or property, without due process of law. This section declares "equality before the law" for all citizens, in the solemn and binding form of a constitutional enactment, to which no reasonable objection can be urged.

The second section provides a new rule of apportionment of representation, basing representation upon the number of citizens whose males are allowed participation in the elective franchise, to which are added, all unnaturalized foreigners.

The Constitution, as it now is, contains a provision for partial representation for slaves; the cause of this having passed away, this amendment seems proper, to meet the requirements of the new order of things.

The effect of the third section is to deprive the promoters and leaders of the late rebellion—men who have been so far forgetful of their duty to their country as to plan and assist in an attempt to overthrow the government, after having taken, as officers, the solemn oath to support the Constitution of the United States, and of the State in which they held office—from again holding office under the United States or any State, unless relieved of this disability by a vote of two thirds of each House of Congress.

That the only pains and penalties sought to be imposed upon the leaders of the late rebellion, for all the loss of life and calamities which ensued, for the immense expenditure of treasure, and the debt which now is a burden to the nation, should be, the prohibition of such men from holding office, shows the magnanimity of the people who have suffered so much, and demonstrates the fact that a republican government can with safety be more lenient to disloyal subjects, than can monarchies in any form.

The fourth section declares that the validity of the public debt of the United States shall not be questioned; and that no debt incurred in aid of secession and rebellion, or any claim for loss of property in slaves shall ever be paid by the United States or by any State. It is fair to assume that any opposition to this, must proceed from those who desire to repudiate the national debt, or would burden the people with the rebel debt, or both. For the credit of the State, it is to be hoped few such can be found either in the Legislature or among the people.

The fifth section authorizes Congress to pass all needful laws to carry these provisions into effect.

These amendments, so necessary for the protection of individual rights, so just in fixing a basis of representation; so indispensable for the protection of the Government and the people against further attempts at insurrection and rebellion; and at the same time so magnanimous to those who have forfeited every right by their own voluntary acts; and so essential to guard the public credit, have been submitted to the several States for adoption or rejection.

I commend them to your favorable consideration, and, while there is little doubt of their ratification by the requisite number of States, if not already done, I confidently trust that California will not mar the loyal record, heretofore made, by rejecting them.

NATIONAL AFFAIRS

At the date of the meeting of the last Legislature, an experimental plan of reconstructing and reorganizing the late insurgent States was being tried. I then expressed the hope, in which all good citizens concurred, that the people of those disorganized States, would accept the lenient terms proposed in good faith, and show by their acts that the spirit of secession, rebellion and hatred, had given place to a truly loyal sentiment; that the wicked leaders from whom had sprung all the woes of the late war would be set aside, and the places of honor, trust, and power, be filled by men who earnestly desired peace, good order and justice; and that the lives, liberty, and property of all the inhabitants of those States would receive ample protection from the laws which they would enact. Instead of this, it was found that those who had been most prominent in originating, organizing, and carrying on the rebellion, had been elected to fill all the places of trust and power in those States; unrepentant and unpardoned rebels had almost invariably been elected to the Senate and House of Representatives in Congress; laws were passed by their Legislatures providing for the apprenticing of negroes, which, if carried into effect, would have rendered the condition of the freedmen worse than that from which they had been emancipated by the operations of the war; and all men, whether white or black, who had stood by the Government in the hour of its peril, were proscribed and persecuted. In a word, the spirit of rebellion seemed triumphant, and all loyalty appeared crushed under its iron heel.

In view of this, Congress refused to recognize these States as reorganized, and declined to admit into its counsels the men who, failing to overthrow the Government by the sword, now seemed only too anxious to share in its control and direction. After months of patient investigation, and with an earnest desire that harmony might be restored at the earliest moment consistent with safety and the future well being of the Government, Congress passed a joint resolution, proposing certain amendments to the Constitution of the United States, and submitted them to the several States for adoption or rejection;—it being publicly announced and generally understood, that the ratification of these amendments by the late insurgent States, would entitle them to recognition by the Federal Government.

These amendments, so just and proper in themselves, so mild and lenient to the people of the South, were indignantly, and in some cases indecently rejected by the Legislatures of all these States, except one. Thus matters stood at the close of the session of Congress in eighteen hundred and sixty-six; Congress insisting that the representatives of the people were the sole judges of the whole matter, and the President affirming that reconstruction was complete under his plan, contending that the whole power of Congress over the matter consisted in examining and passing upon the regularity of the credentials of members and Senators who presented themselves and asked for admission.

At the elections held in eighteen hundred and sixty-six for members of the present Congress, the two opposing theories of reconstruction were in effect submitted to and passed upon by a vote of the people. The whole subject was discussed at large, by the ablest men of the nation, and the issues involved in the contest were considered of such moment, that the Chief Magistrate of the nation, felt called upon, to instruct the living concerning these questions, while journeying to do honors to the dead. The verdict of the people was overwhelmingly against the Presi-

dent's plan of reconstruction, and in favor of the power and duty of Congress to insist upon such terms and safeguards in the reorganization of these States, as would guarantee loyal governments, adequate for the protection of all the inhabitants. The congressional plan is now being tried with promise of good results; conventions have been called in nearly or quite all these States; constitutions are being framed, and it is confidently expected that a large majority, if not all, will be in practical and harmonious relations with the Union during the next year. If this happy consummation be realized, the thanks of all loyal men, and all who desire to see this nation continue as one great whole, with a government guaranteeing freedom and equality before the law to all its citizens, and offering an asylum to the oppressed of all nations, will be due to the firmness and integrity of purpose displayed by Congress in the great struggle through which it is now passing. If, contrary to present anticipations, the terms now offered are spurned and rejected by the people of one or more of these States, it cannot be doubted that the rightful authority of the United States will be exercised to protect life, liberty, and property, until new State governments shall be formed, which will contain ample guarantees for individual rights and national security. "Loyalty may wait, but cannot afford to yield."

RETROSPECT.

The four years during which by the blessing of God and the favor of the people I have had the honor to preside over the executive department of this State, have been replete with startling events. During this period, advancement in enlightened public sentiment has been marked, and material prosperity has received a new impetus. The nation, freed from the shackles which bound it to slavery and barbarism, has entered upon a career of unexampled prosperity. The trials through which it passed have demonstrated the inherent strength of a government founded upon the free will of an intelligent people, and challenged the respect if not the admiration of all the nations of the earth.

In these years the largest army has been seen in the field, of which any record can be found in modern history. Its deeds of gallantry and daring fill all loyal hearts with admiration, and the record of its exploits will be handed down to generations that come after us in story and in song. The sublime spectacle has been presented of a million of men, laying aside the enginery of war, quietly returning to their homes, and clothing themselves in the habiliments of peace, resuming their accustomed vocations, in agriculture, manufactures, commerce and the arts; and all this without the least shock or commotion, and without causing a ripple upon the surface of society.

In the midst of the terrible struggle, when successes and defeats followed each other in rapid succession, and the fate of the nation seemed trembling in the balance, the sovereign people were called upon to indicate by their ballots who should be their executive head for the four years then next ensuing, and at the same time to say in substance whether the war was, or was not, a failure. We saw the chosen leader of the people, the man whom the nation loved and delighted to honor—in whose heart were found "malice towards none, and charity for all," and whose actions were marked by purity and singleness of purpose—slain by the hand of an assassin, and the control of the Government quietly pass to another without jar, discord, or debate. And when this new ruler, filled with pride, ambition, and love of power, essayed to set aside

the will of the people, as expressed through their representatives, and substitute instead his own wicked policy, the people through elections, in the usual form, so strengthened the hands of Congress, as to enable it to go forward in the work of reconstruction in accordance with the demands of national justice and national security.

The "area of freedom" has been enlarged by the acquisition of Russian America, and to the indomitable energy of one of our own citizens was the Government indebted for the opportunity of communicating with Russia in regard to the purchase, by means of a telegraph under the Atlantic.

During this eventful period a sister republic has encountered the armed forces of one of the most powerful nations of Europe, aided by large numbers of her own rebellious citizens. She maintained the struggle for years in the face of every discouragement; finally, drove the invaders from her soil, and meted out condign punishment to the cruel leaders. The republic is now re-established, we hope, on a firm foundation, and through the quiet agency of the ballot box, the man who led this people in war has been called with great unanimity to the chief executive position of the republic.

As a State we have kept pace with the spirit of the age in intellectual and moral advancement, and have achieved reasonable success in every branch of domestic industry. Peace and good order have been maintained in all our internal affairs; the laws have been found adequate for the protection of all; the Courts, presided over by honest and capable Judges, have been open to redress the wrongs of rich and poor, of the exalted and the humble alike. No tumultuous or riotous proceedings have taken place, calling for the aid of the military to suppress, except in a single instance, and even then the call was a precautionary measure rather than a case of necessity. Offenders against the laws have been brought to speedy trial, agreeably to established forms, and the punishment adjudged to the guilty has been administered with a firm yet kind hand.

The charities of the State have been honestly dispensed, and have afforded a comfortable home and careful attention for those bereft of reason; aiding, also, in the care of the helpless orphan, and liberally providing for the support and education of the deaf and dumb, and the blind.

The advancement made in the cause of education has been rapid; our common schools and seminaries of learning have multiplied, and the generous support granted them by a willing people, affords just cause for sincere congratulation.

In material resources our advancement has been steady, healthful, and permanent. Since eighteen hundred and sixty-three the assessed value of property in the State has increased nearly if not quite forty millions of dollars, and it is estimated that the present actual values largely exceed the amounts put down by the Assessors.

Manufactures, in the various branches, have increased and prospered, affording additional employment to thousands of industrious operatives. Our commercial interests have been developed to meet the requirements of the Pacific coast, and steam communication has been successfully established with the Hawaiian Islands, China, and Japan, which gives promise of an extended trade with those countries.

The breadth of land brought under the plough is rapidly widening from year to year, and abundant crops are the sure reward of judicious cul-

ture. The foreign demand for our surplus products has been regular, and the prices obtained have been remunerative to the farmer.

The apprehension of miners in regard to unwise and unfriendly legislation by Congress touching the mineral lands, has been allayed by the passage of just and generous laws which guarantee the actual possession to those on whom the prosperity of the State so largely depends. While it is true that the placer mines are diminishing in productiveness, the yield of the quartz mines has materially increased.

The marked and gratifying progress made in the construction of the Pacific Railroad up to this time, gives promise of easy and speedy communication with our eastern neighbors at no distant day. The energy displayed by our own citizens in building this great work is worthy of the highest commendation.

CONCLUSION.

The term of office which the people called me to fill, will expire during the present week, by constitutional limitation. With this communication my official connection with the Legislature and the people will cease, and I shall cheerfully retire to private life.

In the conduct of public affairs, during this time, it has been my aim and earnest desire to see the laws faithfully executed; to aid in developing all the resources of the State; to prevent the property of the State from being taken without a just equivalent; to discountenance and check unwise and special legislation; to stop as far as possible wasteful expenditures and extraordinary appropriations, and to see that the money contributed in the way of taxes was judiciously and economically expended. The penal institutions and the public charities, the schools, colleges, and all organizations having for their object the protection, amelioration, education and advancement of the people, have been subjects of my care and solicitude, and have received a due share of my personal attention. In a word, I have endeavored to fulfil, as far as possible, every obligation imposed upon me by the people. How near the object sought has been attained, must be left for others to judge.

For the ability, integrity and zeal displayed by all the State officers in the discharge of their varied duties; for the efficient aid rendered me by all connected with the State Government; for the kindness and courtesy which have marked all official relations; for the generous confidence of the people, and for the gracious favor of a kind Providence, I feel deeply sensible, and desire to return profound thanks.

October 27th, 1866.

August, 1866.....	Miguel Peralta.....	Grand larceny.....	Alameda.....	One year.

DECISION.—Whereas, from a statement of the case made by ten of the jury who tried him, and by the County Judge, County Clerk, and Sheriff, it appears that the crime was really committed by other persons, and that the prisoner was by reason of his youth and inexperience made a participant and the victim. The Judge states that it was his intention to have sentenced the boy to confinement at the Reform School, and was only prevented from doing so for the reason that the prisoner's age was a few months in excess of the limit—now, therefore, let him be pardoned. DECISION.—Whereas, a statement of the case has been made to me by Judge Laughton, before whom he was tried, from which it appears that Berry's offence was not clearly proven; that the Judge had determined to impose a sentence of two or three years at most; that he was induced by prisoner's counsel to make the sentence six years, instead of two or three, because it was thought the prisoner would be more likely to obtain a pardon with a long sentence than with a short one; and whereas, the prisoner has already suffered a longer imprisonment than was originally intended—now, therefore, let him be pardoned. DECISION.—Whereas, it appears from the statement of the Judge before whom he was tried, and the District Attorney who prosecuted him, that the verdict and sentence were unjust and severe, and that the person jointly indicted with the prisoner, and who was equally guilty, was convicted of a lesser offence for which he has suffered the sentence imposed, and is now at liberty; and whereas, the Judge and officers of Placer County, who were acquainted with all the facts, earnestly petition for Rodriques' pardon—now, therefore, let him be pardoned. March, 1859.....	Moses Tate.....	Murder in 2d degree.	San Francisco..	Life.

DECISION.—Whereas, the facts in this case appear to be that Tate was induced by another person to assist in the commission of crime; that the other person planned it and prevailed upon the simplicity of the prisoner till he became an actor in it, and that the trials resulted in the acquittal of the guilty one and the conviction of Tate; and whereas, the prisoner's mental perceptions are much below the ordinary standard; he is quiet and inoffensive, and no possible good can result from longer imprisonment; and whereas, a large number of persons have petitioned for his pardon and agree with me in these conclusions—now, therefore, let him be pardoned. Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
December, 1866....	Peter D. Hedley.....	Embezzlement.....	San Francisco..	Three years.

DECISION.—Whereas, petitions and letters have been received asking for the pardon of Hedley, signed by the Governor of Nevada, Judge Baldwin, and a large number of the most respectable citizens of Virginia, Gold Hill, and other places in Nevada, and by large numbers of persons in San Francisco, Marysville, and Oroville; and whereas, the facts in this case appear to be that Hedley appropriated the money to his use without felonious intent; that he undoubtedly intended to return it, and that his conviction was sought more for an *example* than as a punishment for his particular offence; and whereas, in view of all this, it would seem that the imprisonment already suffered is ample—now, therefore, let him be pardoned. November 26th, 1867.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
March, 1862.....	Alexander G. Flowers	Murder in 2d degree	Tuolumne.....	Twelve years.

DECISION.—Whereas, the surgeon of the prison certifies that said Flowers is suffering from a pulmonary disease from which there is no possibility of recovery if retained in prison, and strongly urges his pardon on the score of humanity, in which request the officers of the prison join; and whereas, the conduct of the prisoner has been exemplary since his confinement—nearly six years—giving evidence of reformation and a correct life in the future, if released—now, therefore, let him be pardoned. November 26th, 1867.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
February, 1860....	Henry Wappner.....	Murder in 2d degree.	San Francisco..	Life.

DECISION.—Whereas, an investigation into the facts in this case satisfies me that the grade of the crime was not greater than manslaughter, for which he has already suffered about eight years' imprisonment; and whereas, a portion of the jurors and many respectable citizens of the City of San Francisco have signed a petition asking for executive clemency in this case—now, therefore, let him be pardoned. November 26th, 1867.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
December, 1865....	William Jocelyn.....	Grand larceny.....	Colusa.....	Six years.

DECISION.—Whereas, it is made to appear to me that the prisoner was convicted at a time of great excitement; that the evidence against him was in the main circumstantial, and that at the time of the trial and since, grave doubts have existed in the minds of those best able to judge of the guilt of the accused; and, whereas, a petition, signed by all the officers of the prison has been received, in which they testify to his exemplary conduct, and pray for executive clemency, and the prayer is concurred in by persons who certify to Jocelyn's former good character—now, therefore, let him be pardoned. November 26th, 1867.

LIST OF PARDONS—Continued.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
February, 1857 ...	William Miller.....	Murder in 2d degree.	Butte.....	Twenty-one years.

DECISION.—Whereas, from an examination into the facts of this case it appears that certain witnesses, who were cognizant of all the circumstances, could not be found at the time of the trial, whose evidence would probably have proven a case of justifiable homicide; and whereas, the statement of evidence given at the trial clearly demonstrates that the offence was not of higher grade than manslaughter, and if a correct verdict had been found, the prisoner, having suffered more than ten years' imprisonment, would be entitled to a discharge—now, therefore, let him be pardoned. November 26th, 1867.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
July, 1860.....	Miguel Marquez.....	Murder in 2d degree.	Alameda.....	Life.

DECISION.—Whereas, an examination into this case discloses the following facts: Marquez was convicted of the murder of S. D. Lester; the case was appealed and the verdict was set aside by the Supreme Court; he was again tried and the jury disagreed, standing eight for acquittal and four for conviction. Upon the third trial the jury, after twenty-four hours deliberation, found a verdict of murder in the second degree; and this verdict was found in the face of the ante-mortem declaration of the deceased that the prisoner was not the guilty party; and whereas, the people of Oakland testify to the former good character of Marquez, and give it as their opinion that he is suffering punishment unjustly—now, therefore let him be pardoned. November 26th, 1867.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
March, 1865.....	J. R. Welborn.....	Grand larceny.....	Butte.....	Five years.

DECISION.—Whereas, a petition has been received, signed by a large number of respectable citizens, residents of Butte and Yuba Counties, who were well acquainted with the facts in the case, who say that the prisoner is quite young, and that this is his first and only offence; that he was induced by others to take the horse, and that he had no just appreciation of the offence, nor did he commit the act with criminal intent; and whereas, this state of facts being proven, it appears that the prisoner has suffered enough—now, therefore, let him be pardoned. November 26th, 1867.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
June, 1866.....	Refugio Flores.....	Grand larceny.....	Santa Barbara..	Five years.

DECISION.—Whereas, a petition for his pardon has been received, signed by a large number of respectable citizens of Santa Barbara, by which it appears that the evidence upon which the conviction was had was entirely circumstantial, and that in the opinion of petitioners the prisoner is innocent of the crime; and whereas, these statements are indorsed by Hon. R. Pacheco and the Consul of Mexico, Señor José A. Godoy—now, therefore, let him be pardoned. November 26th, 1867.

LIST OF PARDONS—Continued.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
April, 1865.....	Richard Kneale.....	Manslaughter.....	Nevada.....	Ten years.

DECISION.—Whereas, a statement of the case has been made to me in writing, signed by the Judge before whom he was tried, the District Attorney who prosecuted him, by Hons. David Belden, A. A. Sargent, Judge Niles, and many other respectable citizens of Nevada County, from which it appears that the offence was committed under great provocation, and the prisoner had good reason to believe his own life was in danger when the deed was done; and whereas, the petitioners say the sentence was disproportionate to the offence, and that the punishment already inflicted is ample—now, therefore, let him be pardoned. November 26th, 1867.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
August, 1862	Ah On.....	Murder in 2d degree.	San Francisco..	Ten years.

DECISION.—Whereas, I am informed in a letter received from Hon. S. F. Reynolds, the Judge who presided at the trial of said Ah On, that the evidence did not warrant a verdict for a higher crime than manslaughter, and that he has already suffered imprisonment for more than five years, a term long enough for the latter crime; and whereas, the officers of the prison unite in a certificate setting forth his uniform good conduct while under their charge—now, therefore, let him be pardoned. November 30th, 1867.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
October, 1858.....	Isaac Morris.....	Assault to murder...	Sacramento.....	Fourteen years.

DECISION.—Whereas, a petition has been received by me urging the pardon of the said Isaac Morris, on the ground that the ends of justice have been satisfied by the long imprisonment he has already suffered; and whereas, from a personal investigation of the case I am satisfied he should be released without further punishment; and whereas, the prison officers testify to his excellent behavior since he has been under their charge—now, therefore, let him be pardoned. November 30th, 1867.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
May, 1862.....	N. R. Ellis.....	Grand larceny..	Sonoma.....	Nine years.

DECISION.—Whereas, a petition signed by the County Judge, District Attorney, and all the county officers of Sonoma County, asking for Ellis' pardon, has been received, from which it appears that the value of property stolen did not exceed seventy-five dollars; and whereas, the prisoner has already suffered over five years' imprisonment, a punishment which seems to be ample for the offence—now, therefore, let him be pardoned on condition that he depart from this State prior to December fifteenth, eighteen hundred and sixty-seven, never to return. November 30th, 1867.

October, 1865.....	Ah Toy.....	Vagrancy	San Francisco ..	Sixty days.

DECISION.—Whereas, certificates signed by Dr. Wm. T. Garwood, County Physician, and other physicians, going to show that the prisoner is partially blind, which fact, if it had been established on the trial, would have relieved him from the charge of vagrancy; and whereas, Hon. P. W. Shephard, the Police Judge who sentenced him, asks that he may be pardoned—now, therefore, let him be pardoned. November 1st, 1865.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
March, 1866.....	John Stewart.....	Misdemeanor.....	San Francisco...	Six months.

DECISION.—Whereas, it appears from statements made to me by his former employer—Hon. A. L. Tubbs—and also from a petition numerously signed, asking for his pardon; that the prisoner's character has been hitherto unexceptionable, and that there are mitigating circumstances attending the commission of the offence to which he plead guilty; and whereas, the confidence of his former employers appears to be such that they propose to take him into their employ again when released from jail—now, therefore, let him be pardoned. June 15th, 1866.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.

DECISION.—Whereas, a petition has been presented to me, signed by a large number of respectable citizens of Benicia, (the place where he formerly resided,) certifying to the good conduct of the prisoner prior to these offences, and praying that he may be pardoned; and whereas, the District Attorney of the City and County of San Francisco is of the opinion that this is his first offence, and on account of his youth and heretofore exemplary conduct recommends that executive clemency be granted—now, therefore, let him be pardoned on condition that he depart from this State prior to the twentieth instant, never to return. February 8th, 1866.

March, 1866.....	John Atkinson.....	Assault with intent to do bodily injury.	Placer	One year, or fine of \$750.

DECISION.—Whereas, a petition has been presented to me, signed by the County Judge, District Attorney, and other county officers, Senator Hale, and many other respectable citizens of Placer County, asking that the said Atkinson may be set at liberty; and whereas, upon a careful investigation of the case I am convinced that the sentence was disproportioned to the offence, and that the punishment he has already suffered is ample—now, therefore, let him be pardoned. July 19th, 1866.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
July, 1866.....	W. J. Pinckney.....	Petit larceny.....	San Francisco...	Six months.

DECISION.—Whereas, a petition signed by Captain Paul Shirley, United States Navy; Captain Baldwin, and nearly all the officers at the Navy Yard, has been presented to me, asking for his pardon, for the reason that prior to the present charge the prisoner has borne an irreproachable character, and also that the prisoner has a large and destitute family depending solely upon his labor for their support; and whereas, the cause of justice has been fully vindicated by the punishment already inflicted—now, therefore, let him be pardoned. October 1st, 1866.

Edward McGarry, and N. D. Arnot, has been presented to me, from which it appears that Penwell has served faithfully as a soldier during the late war; that the property in question was valued at only twenty dollars; that poverty, and not criminal intent, was what induced the commission of the offence, and that if released, his friends will furnish means for him to leave the State—now, therefore, let him be pardoned. COMMUTATIONS OF SENTENCE,

GRANTED BY GOVERNOR FRED'K F. LOW,

From November 1st, 1865, to December 1st, 1867.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Sentence.
November, 1865....	Francisco Gonzales.....	Murder in 1st degree	Mariposa.....	Death.

DECISION.—Whereas, at the November term, A. D. eighteen hundred and sixty-five, of the District Court of the Thirteenth Judicial District, held in and for the County of Mariposa, Francisco Gonzales was tried and convicted of murder in the first degree, and sentenced to be hung on the twenty-sixth day of January instant; and whereas, from the statement of the evidence furnished me by the Judge, it does not appear to have been a case of "wilful, deliberate and premeditated" murder, but, on the contrary, the killing seems to have been the result of an altercation; and whereas, the foreman and many of the jurors, after having found the said verdict, have, by a most singular request, petitioned for commutation, which request is sustained by representations from the county officers and other prominent citizens of the county, all of which tend most strongly to show that the verdict is not sustained by the evidence—now, therefore, I, Fred'k F. Low, Governor of the State of California, do by the authority vested in me by the Constitution and laws of this State, commute the sentence of the said Francisco Gonzales; and I do hereby order and direct the Sheriff of Mariposa County, upon the receipt of these presents, to take and deliver the said Francisco Gonzales into the custody of the officers of the State Prison of California, and that he be confined there at hard labor for the term of fifteen years, dating from the day of his entrance into the prison.

SEAL.

In witness whereof, I have hereunto set my hand and caused the great seal of State to be affixed, this seventeenth day of January, A. D. eighteen hundred and sixty-six.

FRED'K F. LOW, Governor.

Attest: B. B. REDDING, Secretary of State.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
November, 1866...	Tom (an Indian).....	Murder in 1st degree	El Dorado.....	Death.

DECISION.—Whereas, at the November term, eighteen hundred and sixty-six, of the District Court, held in and for the County of El Dorado, one Tom (an Indian) was convicted of murder in the first degree, and sentenced to be executed on the eleventh day of January instant; and whereas, a petition has been received, signed by the Sheriff, County Judge, and all the county officers of El Dorado County; by a majority of the jurors who tried the case, and a large number of respectable citizens, asking that the sentence of Tom may be commuted to imprisonment in the State Prison, which request is indorsed by Honorable S. W. Brockway, the Judge who presided at the trial; and whereas, it appears from the statement presented to me that the evidence upon which Tom was convicted was the confession of a confederate, (Jim,) who was mainly responsible for the crime—now, therefore, I do by the authority vested in me by the Constitution and laws of this State, commute the sentence of the said Tom to imprisonment in the State Prison of this State, and the Sheriff of El Dorado County is hereby ordered, upon the receipt of these presents, to take and carefully convey the said Tom to the State Prison and deliver him to the officers thereof, there to be securely kept and imprisoned during the term of his natural life.

SEAL.

In witness whereof, I have hereunto set my hand and caused the great seal of State to be affixed, this fifth day of January, A. D. eighteen hundred and sixty seven.

FRED'K F. LOW, Governor.

Attest: B. B. REDDING, Secretary of State.

COMMUTATIONS OF SENTENCE—Continued.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
February, 1866....	José Sorano.....	Murder in 1st degree	Sonoma.....	Death.

DECISION.—Whereas, at the February term, eighteen hundred and sixty-seven, of the District Court, held in and for Sonoma County, José Sorano was convicted of the crime of murder in the first degree, and sentenced to be executed on the twenty-ninth day of March, eighteen hundred and sixty-seven; and whereas, a respite has been granted by the Governor, suspending the carrying into effect of the said sentence until the twenty-sixth day of April instant, in order that a proper examination might be made of the evidence adduced upon the trial; and whereas, from an examination of the case it does not appear that there was evidence going to show that the killing was “wilful, deliberate and premeditated;” and whereas, the Judge before whom he was tried states that he is in great doubt about the whole matter, and thinks the ends of justice would be subserved by a commutation of the sentence to imprisonment in the penitentiary—now, therefore, I do, by the authority vested in me by the Constitution and laws of this State, commute the sentence of the said José Sorano to imprisonment in the State Prison of this State for the term of thirty years, and order that the Sheriff of the county of Sonoma, upon the receipt of these presents, take and safely convey the said Sorano to the State Prison of this State, there to be confined for the term herein prescribed.

 SEAL.

In witness whereof, I have hereunto set my hand, and caused the great seal of State to be affixed, this eighteenth day of April, A. D. eighteen hundred and sixty-seven.

FRED'K F. LOW, Governor.

Attest: B. B. REDDING, Secretary of State.

Date of Sentence.	Name of Prisoner.	Crime.	County.	Term of Sentence.
October, 1867.....	José Maria Arceo.....	Murder in 1st degree	Monterey.....	Death.

DECISION.—Whereas, at the October term, eighteen hundred and sixty-seven, of the Third Judicial District Court, held in and for the County of Monterey, José Maria Arceo was convicted of the crime of murder in the first degree, and sentenced to be executed on the twenty-first day of November instant; and whereas, a petition signed by a majority of the jurors who tried the case, by the County Judge, District Attorney, Sheriff, and all the county officers of Monterey County, as well as by a very large number of the most respectable citizens of said county, prays that the sentence may be commuted to imprisonment in the State Prison; and whereas, the evidence given upon the trial, as shown by the statement furnished me by the Judges, appears contradictory, and I find nothing in it that proves the act was “wilful, deliberate and premeditated;” on the contrary, the whole evidence goes to show that the homicide was the result of sudden passion, which clearly makes the grade of the crime no higher than murder in the second degree—now, therefore, by the authority vested in me by the Constitution and laws of this State, I do hereby commute the sentence of the said José Maria Arceo to imprisonment in the State Prison of this State for the period of thirty years; and upon the receipt of these presents the Sheriff of Monterey County will cause the said José Maria Arceo to be taken and safely conveyed to the State Prison, and the officers of the said prison will receive and safely keep the said Arceo for the full period of thirty years, dating from the day of his arrival at the prison.

 SEAL.

In witness whereof, I have hereunto set my hand and caused the great seal of State to be affixed, this eleventh day of November, eighteen hundred and sixty-seven.

FRED'K F. LOW, Governor.

Attest: B. B. REDDING, Secretary of State.

The following message was received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, December 4th, 1867. }

To the Senate of the State of California:

I have to inform your honorable body that I have appointed Jed. C. Butler, Brigadier-General of the Sixth Brigade, *vice* Wall, rejected by the Senate, and ask that said appointment be ratified and confirmed.

FRED'K F. LOW,
Governor.

The Senate being in executive session, Mr. Mandeville moved that the consideration of the message be laid upon the table.
Lost.

Mr. Lewis desired to give notice that he would on to-morrow move a reconsideration of the vote whereby the Senate had refused to advise and consent to the appointment of Jos. G. Wall as Brigadier-General of the Sixth Brigade.

The Chair (President pro tem. Mizner) decided that the motion could not be entertained and was out of order, for the matter referred to had passed beyond further action of the Senate, and the Governor having

become informed of the rejection of his former nominee, had already submitted another name for confirmation by the Senate.

Mr. Mandeville appealed from the decision, and upon the question, "Shall the decision of the Chair stand as the judgment of the Senate?" Messrs. Lawrence, Lewis, and Pearce, demanded the ayes and noes.

Mr. Robinson moved the previous question.

The Senate refused, by a vote of eighteen to eighteen.

The roll was called on sustaining the decision of the Chair, and it was adopted as the judgment of the Senate, by the following vote:

AYES—Messrs. Banning, Beach, Belden, Bradley, Chappell, Conly, Ewer, Green, Hardy, Heacock, Murch, Perley, Pratt, Roberts, Robinson, Teegarden, Tubbs, Tweed, Wadsworth, and Wolcott—20.

MESSAGE FROM THE ASSEMBLY.

The following message was received from the Assembly :

ASSEMBLY CHAMBER,
December 4th, 1867. }

Mr. PRESIDENT:—I am directed by the Assembly to inform the Senate that the Assembly has this day adopted Assembly concurrent resolution No. 2, relative to appointing a joint committee to consult with the citizen's committee on the inauguration ceremonies.

WM. S. BYRNE,
Assistant Clerk.

The resolution above reported was considered and concurred in.

The President appointed on the part of the Senate, Messrs. Mandeville, Freeman, and Wolcott.

In consequence of this action it became unnecessary to continue a former committee appointed to act for the Senate in relation to the same subject, and consequently, on motion of Mr. Mandeville, it was discharged.

Mr. Hager offered a concurrent resolution to appoint a committee of three from each House to wait upon the Governor and Lieutenant-Governor elect, to inform them of their election and the time of inauguration.

The resolution was adopted, and under it the President appointed Messrs. Hager, Johnson, and Green, on the part of the Senate.

Mr. Mandeville moved to adjourn.

Lost.

GOVERNOR'S MESSAGE RESUMED.

The Senate resumed consideration of the Governor's message relative to the appointment of Jed. C. Butler, *vice* Wall, rejected.

Mr. Mandeville raised a point of order, which the President decided out of order, for the reason that it was but a repetition of a point involved in a decision sustained by a vote of the Senate growing out of the matter in debate.

For the purpose of correcting some possible misapprehension of the opinion of the Senate on the point of order decided by the Chair, the Speaker pro tem. (Mr. Ewer) moved a reconsideration of the vote by which the decision was declared to be the judgment of the Senate, and the vote was reconsidered.

The point of order on which the appeal was taken was again raised, and the President decided that a notice of a motion to reconsider the vote whereby the nomination of Wall was rejected, was in order, and should be entertained, and also that under the Rules of Order of the Senate such a motion precluded further present action upon the subject matter in the message under consideration.

The Senate, on motion of Mr. Mandeville, at four o'clock and thirty minutes P. M., adjourned.

T. W. MACHIN,
President of Senate.

Attest: JOHN WHITE, Secretary of Senate.

IN SENATE.

The Chair (President pro tem.,) decided the point of order not well taken.

Mr. Lewis appealed from that decision to the Senate, and on the question, "Shall the decision of the Chair stand as the judgment of the Senate?" the ayes and nays were demanded by Messrs. Pendegast, Lewis, and Heacock, and the decision sustained by the following vote:

Mr. Murch moved that the Senate proceed to consider the nomination of Jed. C. Butler as Brigadier-General.

Mr. Hager moved that the Senate take a recess.

On which, Messrs. Hager, Pearce, and Lawrence, demanded the ayes and noes, and the Senate refused, by the following vote:

By direction of the President pro tem., the Secretary of the Senate read the following resolution :

Justice Sawyer also administered a similar oath to the Lieutenant-Governor elect.

On motion of Mr. Mandeville, the Convention proceeded to the portico of the Capitol to hear the inaugural address of Governor Haight.

INAUGURAL ADDRESS.

FELLOW CITIZENS :

In assuming the office of Chief Magistrate, it becomes my duty, in accordance with usage, to indicate the policy which will govern me in the execution of this great trust.

I should do great injustice to my own feelings, did I not express my grateful sense of the regard and confidence shown me by my fellow citizens in the late election. Conscious of many deficiencies, and diffident of being able always to meet the expectations of the people, I shall promise nothing but a faithful endeavor to promote their interests, and ask nothing in return but confidence in the purity of my motives and purposes.

Before alluding to matters of local concern, the posture of national affairs renders it proper that I should express frankly certain views upon the great questions of public policy now pending before the country. They have been formed after much anxious reflection, and seem to me worthy of the consideration of all good citizens, without distinction of party. There is nothing which all of us have more at heart than the prosperity and true glory of our country, and the perpetuity of our free institutions; and those questions which relate most nearly to these great objects, demand our first and most earnest attention. It is not to be disguised that we have arrived at a critical period of our country's history, and that the capacity of the people for maintaining a constitutional government is being subjected to a severer test than ever before.

We ought to approach the consideration of the issues before us with charity for each other's opinions, mindful of our obligations as citizens of a common country; anxious, each and all, to maintain the Federal Constitution inviolate, and to preserve the Federal Union in the spirit of our fathers.

Whatever our party relations may be, our interests are inseparable, and our motives and objects should be identical. Political parties will exist in every country that is free; yet party spirit, when carried to excess, is the bane of republican governments and constantly endangers their stability. Blind prejudice for or against party names disqualifies men for the duties of good citizenship, because it paralyzes their judgments upon political questions. All parties, at some period of their career, commit errors, and infallibility cannot be predicated of any man or body of men. No party can justly claim a monopoly of patriotism or intelligence. The mass of all parties are sincere in their convictions, and honestly desire the real welfare of their country. Aspersions of motives and abusive epithets provoke recrimination, produce alienation and bitterness of feeling, and ought to be condemned by all good citizens.

At the time my predecessor was inaugurated, a gigantic civil war was in progress, which taxed the whole energies of the country. The people of the Southern States had rebelled against the authority of the Federal Government, and, instead of relying for redress of alleged grievances upon peaceful means, undertook to assert their independence by force of arms. After an arduous struggle of four years, the war was terminated by the complete triumph of the national forces and the suppression of the rebellion. Those in arms against the national authority surrendered without any conditions other than such as were agreed upon by the Generals in the field.

The right of secession claimed to exist by a portion of the people of the Southern States, was never recognized by the people of the Northern States, and has been extinguished finally and forever by the result of the war. Indeed, it cannot seem otherwise than strange that any persons could be found to advocate a doctrine so destructive of the ends of a federal government. A right of revolution exists always when oppression is practiced for which there is no other adequate redress; but the right of any member of the Union to withdraw at pleasure, and thereby extinguish federal authority over its citizens, could never be recognized without assenting to the practical repeal of the Constitution and the abolition of the Federal Government. No government existing by so frail a tenure could command respect at home or abroad. Such a doctrine needs no discussion before the people of California, for it has been expressly repudiated here by all political parties.

Not only has the war put an end to any claim of such right, but slavery also—the great subject of contention between the North and the South—has perished in the struggle, and can never, in any form, be revived. The object of the war upon our part being avowedly the enforcement of the laws and the preservation of the Union, it is a remarkable fact that, although the war was successfully closed two years and a half ago, the Union is, apparently, no nearer restoration to-day than in the spring of eighteen hundred and sixty-five. The reasons for this fact, and the effect of the policy pursued by Congress, I propose briefly to examine.

In order to arrive at correct conclusions on this subject, there must be a disposition to lay aside preconceived opinions, and, in a spirit of candid inquiry, to aim at forming a correct judgment as to what policy will promote the highest good of the whole people. This is the duty of every citizen, for upon the right solution of the questions involved may depend the preservation of the Union and the Government.

The love of country is justly extolled as one of the noblest feelings of

the human breast. In the mind of every American this feeling is strengthened not merely by a contemplation of the greatness of his country, its territorial extent and unexampled resources and progress, but by an appreciation of the beneficent system of government framed by the wisdom of our fathers, and which has been for more than three quarters of a century the admiration of the world.

No standard of valuation could express the worth of our free institutions, and language could hardly give an adequate idea of the sacrifices by which these institutions were purchased. Their excellence consists mainly in two elements: first, that they afford to the people the free choice of their rulers; and second, that under our system the powers of government are defined and limited by written Constitutions.

The forms of government which prevail in Europe are chiefly monarchical. The defect in such forms frequently consists not merely in lack of popular choice, but in lack of restraint upon the power of the monarch—unlimited power in the hands of a king; in other words, an absolute monarchy is a despotism which may be mild or cruel, according to the qualities and character of the sovereign. There is no intelligent reader of history who is not aware that an unlimited democratic government is more objectionable and dangerous than an absolute monarchy. It is a familiar saying, that one tyrant is preferable to a multitude. The object of checks and limitations under a republican government is to protect the minority from oppression by the majority.

It is stated by all intelligent writers that there is more danger of the overthrow of free governments by legislative usurpations than by any other cause. The reason is obvious. The very number of the legislative body destroys all sense of individual guilt or responsibility. The temporary majority claim to represent the will of the people, and under the leadership of extreme men, are prone to oppressive measures against the minority. The people are sometimes carried away by excitement and passion, and misled by designing politicians. They rarely fail, however, upon reflection, to see the right and correct their error.

The safety of our institutions consists in the virtue and good sense of the mass of the people, which will prevent them from pursuing any pernicious policy if they have sufficient time for reflection before the mischief becomes irreparable.

One object of constitutional limitation is to secure this time for passion to cool and for reason to prevail over prejudice. If, however, either the Legislature or Executive disregard the limits upon their power fixed by the people in the organic law, the whole virtue of our system is gone, and what we supposed to be a constitutional republic becomes the mere tyranny of a majority. Such a government would be the worst form of despotism, and hence the vital importance of confining the Legislature and Congress within the sphere of their constitutional powers. Upon this depends everything valuable in our institutions—the protection of our lives and property, and the security of our liberties. These fundamental principles cannot be too often repeated, or too deeply impressed upon the popular mind and heart.

It has of late been common to deride all appeals to the Constitution, and to speak of the powers of Congress as though Congress were the creator of the Constitution, instead of being its creature. Such sentiments tend to the destruction of the Government, for what is the framework of government but the Constitution? It is not the President, nor Congress, nor the Supreme Court, nor all combined. It is the written Constitution, adopted by the people as the organic law. Those who

advocate the doctrine that Congress can override the Constitution, or act "outside of the Constitution," or under the plea of necessity exercise powers not granted by that instrument, are aiding to establish a principle that will destroy whatever is sacred and valuable in our free institutions. Legions of armed foes could never accomplish so much to destroy this admirable framework of government which we have inherited from our fathers, and which we hope to transmit as a priceless legacy to our children.

In a strict adherence to the organic law is our only safety. There are certain personal rights secured by it for which we have no other guarantee whatever. One is the right to be tried by a jury for alleged criminal offences, which has justly been termed an inestimable right. It has from time immemorial been regarded as the palladium of civil liberty. Without it there is no security for a fair and impartial trial. The privilege of the writ of habeas corpus is another of those rights which affords a security against illegal imprisonment. This has been the boast of every lover of liberty in England and this country for centuries. The security of private dwellings against unreasonable search, the right to be protected against prosecutions for capital or infamous crimes, except upon presentment of a grand jury, the freedom of the press, and the subordination of the military to the civil authority, are also guaranteed by the fundamental law. These rights are as precious as life itself. Without them, life to a freeman would be of little value. Tens of thousands in all ages have preferred torture and death to a surrender of those personal rights which are so dear to the heart of every American. The only security for them, however, is to be found in the provisions of the Constitution, and in the determination of the people that those provisions shall be respected by their public servants in Congress and in all departments of the Government. It is useful to recur to elementary principles like these, which in times of excited passion are in danger of being lost sight of and undervalued; and no legislation which cannot stand the test of these principles ought to be countenanced for a moment by the people.

It has always been a political and legal axiom that the Federal Government is one of enumerated and delegated powers. It can exercise no powers except those expressly conferred, and such incidental ones as are necessary to the proper exercise of the powers granted. All powers not thus granted are reserved to the States or to the people. The powers delegated to the Federal Government are for certain specific purposes. The State Governments exercise all powers not prohibited to them by the State or Federal Constitution. The result is, that the several States have exclusive control of their local and domestic concerns, while certain enumerated national powers are intrusted to the Federal Government. Upon no other basis could our system permanently exist, for it would be idle to expect a Legislature, in a Capital three thousand miles distant, to legislate intelligently upon the local interests of the people of California. Upon local affairs, exclusive State authority, and upon national affairs, exclusive Federal authority, as defined and expressed in the Constitution, are the only conditions compatible with the perpetuity of the Union. A consolidated republic, with legislative power exercised at a distant Capital, would become odious to the people, and would fall to pieces by its own weight. A strict construction of the Federal Constitution, instead of weakening, strengthens the Union. The opposite construction leads to profligate legislation, to

interference with the domestic affairs of the States, and tends to alienate the affections of the people.

The late war was waged on our part to enforce the authority of the Federal Government in the Southern States and prevent the disruption of the Union, and not to destroy the liberties of any portion of the people, or create a negro empire on our southern border. At the commencement of the war Congress made a formal declaration of its object in a resolution that "the war was not waged on our part in any spirit of oppression, nor in any spirit of conquest or subjugation, nor for the purpose of overthrowing or interfering with the *rights or established institutions of those States, but to defend and maintain the supremacy of the Constitution and preserve the Union, with all the dignity, equality, and rights of the several States unimpaired.*"

This solemn pledge and declaration of the object of the war was repeated by the executive and legislative departments on various occasions, and cannot be violated without a breach of public faith and a stain upon our national honor.

In our diplomatic correspondence with foreign powers, it was declared explicitly that the suppression of the insurrection would leave the insurgent States with all their rights intact. An unvarying series of acts and declarations by the Executive and Congress, from the outbreak of the war to the present time, all proceed upon the hypothesis that the ten Southern States are not out of the Union, but States within the Union and within the pale of the Constitution.

Their separate State existence was recognized in the adoption of the Constitutional Amendment abolishing slavery; in official intercourse with the other States and the General Government; in the appointment and confirmation of judicial and other officers for them, and in the universal admission that they must be counted in determining whether the amendments last proposed have been adopted by a sufficient number of States.

The Acts of Congress admitting such of them as came into the Union subsequently to the adoption of the Federal Constitution stand unrepealed and irrepealable; some of them are of the original thirteen which achieved independence and organized the government.

Part of their sovereignty was delegated to the Federal Government for certain national purposes, but their existence as States cannot be destroyed by any lawful or constitutional authority.

We fought throughout the war on the side of the Government for the principle that their ordinances of secession were void, and that they were still subject to the Constitution and laws, and we establish our doctrine by the success of our arms.

If our doctrine was correct, and our declarations were true, we were not waging a war of conquest, but one for the maintenance of the Constitution and the enforcement of the laws.

Either they were and are in the Union as States, and their citizens bound to obey the Constitution, and entitled to protection under it, or they were and are out of the Union, and their people not bound to obey the Constitution, and not entitled to protection under it. If we admit this latter proposition, we admit that we have been waging a war of conquest for dominion, and not a war to *maintain the Constitution and preserve the Union*. Such an admission would dishonor us in our estimation and in that of the civilized world. The very acts of Congress which seek to ignore and extinguish the State Governments, recognize their existence by authorizing, in certain contingencies, Department Com-

manders to remove executive, legislative, and judicial officers of those States, and detail military officers to assume the functions of the persons so removed.

The reconstruction policy of Congress is embodied in several distinct measures, the principal ones of which are what are termed the Military Reconstruction Bills, one passed March second, eighteen hundred and sixty-seven, one passed March twenty-third, eighteen hundred and sixty-seven, and one passed July, eighteen hundred and sixty-seven, two years after the war had ended.

These enactments assume that ten of the Southern States are conquered territory, and proceed to divide them into five military districts, each under the command of a military officer not below the grade of Brigadier-General. They abolish in effect the right of trial by jury, and make the accused subject to trial by military commissions; they prohibit any interference by the State authorities, thereby abolishing the writ of habeas corpus; they ignore presentment by grand juries; they tacitly permit the suppression of public journals by military orders, and allow no appeal from military sentence except in capital cases, to the clemency of the President. They assume the control of the elective franchise, which the Constitution vests exclusively in the States; and after disfranchising a large class of the white population, confer the right of suffrage upon all negroes over twenty-one, without regard to qualifications for its intelligent exercise.

This is briefly the nature of the reconstruction policy of Congress. It takes from the white people of ten States their constitutional rights, and leaves them subject to military rule; and disfranchises enough white men to give the political control to a mass of negroes just emancipated and almost as ignorant of political duties as the beasts of the field.

In these measures Congress commits the solecism of legislating martial law; that is, under a constitutional government, in a period of profound peace, the national legislature enacts that in ten States of the Union there shall be no law but the will of the Department Commander, and that the political power in those States shall be given to the negroes, who can thereby control their domestic administration and send to Congress negro senators and representatives, to assist in making laws to govern the white people of the North. Thus, the reconstruction policy of Congress is the subversion of all civil government under military rule, the abolition of those personal rights guaranteed by the Constitution and held sacred since the Government was formed, the subjection of the white population of the Southern States, men, women, and children, to the domination of a mass of ignorant negroes just freed from slavery.

This policy sweeps away in ten States all safeguards of personal liberty, trial by jury, writ of habeas corpus, and security of private dwellings, and leaves every civil officer, executive, legislative, and judicial, to hold his position at the pleasure of the military.

It then confers the elective franchise on the blacks, and provides a system which gives them (though actually a minority) a voting majority over the whites, making those States, negro States; introducing the negro into federal office, and giving him power to participate in federal legislation. That any white man could be found on this continent to sanction a policy so subversive of rational liberty, and in the end so fatal to the Union and the Government, is a subject of unceasing astonishment.

These measures are a violation of the fundamental principles of the

Constitution and of liberty; of every dictate of sound policy; of every sentiment of humanity and of christianity; and are a disgrace to our country and to the age in which we live. In using this strong condemnatory language I am not insensible to the fact that thousands of good men appear to approve of the measures of Congress, nor do I presume to sit in judgment on their motives. Many of them, doubtless, are unconsciously influenced by the passions and resentments of the war, and in their anxiety to guard against an imaginary danger, sanction principles the tendency of which is subversive of republican institutions.

Others have accepted the representations of partizan leaders and presses without examining and judging for themselves.

I entreat all such to pause and ask themselves what good can possibly result from this policy, and where will it end? Do we indeed wish to enslave and degrade our fellow citizens of the southern States? Was it for this that we expended so lavishly our blood and treasure to preserve the Union? Neither our gallant soldiers nor the northern people ever cherished any design to oppress the southern people, nor to erect another St. Domingo on our southern border. A policy which has led the white population of ten States of the Union to consider the necessity of exiling themselves from the soil in which sleeps the dust of their kindred for generations, and which is hallowed by the patriotic deeds of an heroic ancestry and the associations of childhood and youth, is not a policy which ought to be adopted by a magnanimous and christian people; and this is proposed not against aliens, but against our own countrymen, bone of our bone, and flesh of our flesh, sons of sires who fought side by side with our own in the revolution, sons of patriots and statesmen who assisted to establish the foundations of the Government, and to whom we are in part indebted for the very liberties we now enjoy.

It is insisted by those who argue in favor of the reconstruction measures, that the southern people rebelled, and that rebels ought not to possess political rights or franchises; that the disloyal whites cannot be trusted, and that, therefore, the control should be given to the blacks.

The answer to this is plain. No man or class of men, under our form of government, can be deprived of rights or punished for crime except after a fair trial and conviction. We cannot overthrow republican government and civil liberty at the South without inflicting a fatal wound on our own liberties. We must trust the white people of those States with the right of self-government, unless we mean to abandon republican institutions altogether. Besides, it is not true that there is any disposition among the people of those States to repeat the experiment of secession. Their young men have been slaughtered, their country laid waste, and they left destitute of most of the comforts, and in some localities, of the very necessaries of life. The cry for bread has come to us from their famishing households. They have in good faith submitted to the results of the war, and disclaim all idea of secession or of resistance to federal authority. Their right to be represented in Congress is an absolute right, guaranteed to them by the Constitution.

Citizens can be legally tried and punished for treason or for any other crime, but States cannot be deprived of representation without revolutionizing the Government. We have fought against the principle of secession, and have established the doctrine that no State can withdraw from the Union. These States are not out of the Union, unless we falsify all our professions during the war; and if they are in the Union, their representatives are entitled to admission to Congress. A congressional majority may choose to think their political opponents disloyal,

and, on that ground, attempt to exclude them from Congress, but it is evident that the Government could never long be administered in such a spirit or upon such principles.

One man may think every one a traitor who is opposed to permitting negroes or Chinamen to hold office or sit on juries. Another may think every man disloyal who is opposed to forcing negro suffrage upon all the States, in defiance of the Constitution. The late proceedings of Congress in the case of the representatives from Kentucky, illustrate the principle involved. The people of a State which has never seceded or rebelled, which furnished about as large a proportion of soldiers, and performed as much service, and suffered more loss for the Government than any northern State of equal population, by a decisive majority elected representatives to Congress who were refused seats by the dominant party, though no contestants appeared.

This proceeding was both an indignity and a wrong to the people of Kentucky, and a precedent full of evil import to every other State. It is not the right of a majority in Congress to dictate to the people of a State what representatives the latter shall elect, so long as those chosen have the qualifications prescribed in the Constitution. Beyond these, the people who elect are the exclusive judges; otherwise, the right of representation would be of little worth. Democratic representatives might be excluded this year, and republican representatives the next. Vermont and Massachusetts have no more right to prescribe tests of loyalty for representatives from Kentucky and California, than Kentucky and California have for Vermont and Massachusetts.

If, during the war of eighteen hundred and twelve, the representatives from Massachusetts had been denied admission to Congress for opposition to the war, or at a later period, on account of legislation nullifying the fugitive slave law, that State would have had just ground of complaint.

The fear of southern representatives is groundless. What is there in the crushed and subdued people of the southern States, with their slaves emancipated, which should excite any fear on the part of a powerful and victorious Government? It is inconceivable that any person should seriously apprehend resistance to federal authority for a generation to come, if the people of those States are not goaded to desperation by wanton persecution and oppression.

Had their representatives been admitted to Congress in December, eighteen hundred and sixty-five, quiet and harmony would have been restored long before this time, and industry would have revived there. Population and capital would have flowed in from the North and Europe, but neither population nor capital will trust themselves where civil rights exist only at the pleasure of the military, and the negro has political control.

The policy of Congress adds to the burdens of taxation by keeping on foot a large military force at the South, with the expensive machinery of Freedmen's Bureaus, and impairs public and private credit by creating a feeling of insecurity and apprehension for the future.

The policy or propriety of admitting the blacks to the right of suffrage belongs to each State to determine for itself. Had Congress been able to control this subject, both negro and Chinese suffrage would probably have been forced upon the people of California against the will of the vast majority. Ignorance of the effects of such legislation would have inflicted upon us evils absolutely intolerable.

So far as California is concerned, the people of this State have expressed

their opposition both to negro and Chinese suffrage. It is a question not of inalienable right, but simply of expediency. The question is, whether it will be for the greatest good of the greatest number to confine the elective franchise to the whites, or to extend it to the negroes and Chinese. A portion of those persons in this State who favor negro suffrage hesitate to advocate Chinese suffrage, but the congressional policy makes no distinction.

On the contrary, that policy proposes to ignore all discrimination in political privileges, founded on race or color. Indeed, there is no line that can be drawn, unless suffrage is confined to the white population. If it is a question of justice, as some assert, and justice requires the ballot to be given to the negro, then it equally requires the ballot to be given to the Chinaman. If the negro requires the ballot to protect himself, as others assert, then the Asiatic needs it to protect himself. There is, however, no truth in either statement. No principle of justice is involved any more than in the case of females or minors, or foreigners not naturalized. Nor does the negro need the ballot to protect himself any more than either of the other classes referred to; on the contrary, it is for the good of both of those races that the elective franchise should be confined to the whites. The aid of Africans and Asiatics would be an evil, and not a benefit. It would introduce the antipathy of race into our political contests, and lead to strife and bloodshed. The opposition to giving the negro and Asiatic the ballot is not based upon prejudice or ill will against those races, but upon a conviction of the evils which would result to the whole country from corrupting the source of political power with elements so impure.

It is not a sound reason for conferring the elective franchise upon negroes if it were true that they need more protection. Upon this theory, the more helpless and ignorant the negro is the more propriety there would be in admitting him to the ballot box and making him a legislator and a sovereign. Our free institutions rest upon the virtue and intelligence of the people, and upon these qualities is based the only hope of their preservation; but this doctrine of negro suffrage, so persistently advocated by senators and representatives in Congress, proposes as a basis for republican institutions, brutal ignorance and barbarism. So far from the ballot protecting the negroes, it would eventuate in their destruction. The effort to give it to them by military force has already created a feeling of hostility between them and the white population of the South. These inferior races have their civil rights, as all good men desire they should have. They can sue and defend in the courts; acquire and possess property; they have entire freedom of person, and can pursue any lawful occupation for a livelihood; but they will never, with the consent of the people of this State, either vote or hold office.

The foregoing views upon national affairs will, I trust, be received in the spirit by which they are prompted. The lives of individuals are brief when compared with those of nations like ours. But a few years, and we who are now bearing the responsibilities of American citizenship will have passed away, leaving to our successors a legacy of constitutional freedom, or a spirit of lawlessness and disregard of constitutional obligations which will lead to revolution and anarchy. We have a common country, whose past glories are our joint heritage, and whose destiny in the future, whether of glory or of shame, is the destiny of ourselves and of our children.

Let us treat our southern countrymen with that spirit of charity and

kindness which is our especial duty, considering that we are fully as liable to err as any other of our fellow men.

The subject of immigration and labor has engaged much attention in this State since the first organization of a State Government. Our distance from the sources of emigration, and the expense and difficulty of reaching California from the East and Europe, have prevented the increase of our laboring population as rapidly as was anticipated and desired, but while the increase of population will expedite the development of the resources of the State, it would not be wise statesmanship, in my judgment, to invite an immigration of Chinese or any other Asiatic race. Those races are confessedly inferior in all high and noble qualities to the American and European. It is the dictate of wisdom to seek the best material to populate a country. This course is for the highest good of the present and future generations.

No man is worthy of the name of patriot or statesman who countenances a policy which is opposed to the interests of the free white laboring and industrial classes. They constitute the body of the people; they sustain our free institutions; they carry forward our great public enterprises; they dig our canals, they build our railroads, cultivate our fields, explore the recesses of the earth in search of the precious metals; they fight our battles in war. It was their stubborn valor and self-sacrificing patriotism which in the late war saved the Government from destruction.

Their welfare ought to be guarded with jealous care by statesmen and legislators, for it is upon them that we must rely for the preservation of the Government. An additional influx of Chinese to compete with white laboring men in all industrial departments, ought to be discouraged by all lawful means. For the sake of some supposed advantage of cheap labor, such influx would inflict a curse upon posterity for all time. It would tend to discourage that immigration of white laborers from Europe and the Eastern States which is our great need and desire. It would be a short-sighted and selfish policy on the part of men of capital.

The completion of the Pacific Railroad will afford the laboring people of Europe and the Eastern States an opportunity to remove to this coast expeditiously, at a moderate cost, and they will flock hither if the avenues of labor are not filled by Mongolians. The lack of labor will then cease to be seriously felt. What we desire for the permanent benefit of California is a population of white men, who will make this State their home, bring up families here, and meet the responsibilities and discharge the duties of freemen. We ought not to desire an effete population of Asiatics for a free State like ours.

It is urged that this class of immigration should be permitted upon philanthropic grounds; but history and experience show that it is not the dictate of true philanthropy, or of sound policy, to locate together in one community races so radically dissimilar in physical, mental, and moral constitution, as the Caucasian and African, or Mongolian.

The attempt to mix these races is in contravention of natural laws. For mutual good, they should be allowed to remain separated in location. Observation proves that neither social virtue nor public order, neither christian civilization nor true progress is promoted by mingling these races in one community. Commercial intercourse will be mutually beneficial, but all attempts to make a national composite of such elements will be disastrous.

The passage of a law making eight hours a legal day's labor, in the absence of special contract, has been demanded with great unanimity by

the working classes, and a distinct pledge was given by both parties in the late canvass that such a law should be enacted. This pledge will doubtless be redeemed without delay.

The present Registry Law contains some unjust discriminations against naturalized citizens, confers too much power upon Boards of Registration, and is obscure in some of its provisions. No means should be neglected to insure the purity of the ballot-box, for that is the fountain of all political power; and, therefore, a Registry Law, just and simple in its provisions—one which would not disfranchise legal voters—would be acceptable to all classes. The objectionable features of the present law can doubtless be obviated by amendment.

The party which came into power in the late election gave to the people pledges of economy and retrenchment in public expenditure. The burdens of taxation press heavily upon the shoulders of the industrial classes. That those burdens have been unnecessarily increased by a vicious financial system adopted during the war, and by an unwise and oppressive revenue system, there is little doubt; but as these matters appertain to federal legislation, I shall not now discuss the defects of our present financial and revenue systems. Indeed, the large national debt contracted during the war, with our State, county, and municipal indebtedness, would make taxation burdensome with any revenue system that might be devised, and render it imperatively necessary that those entrusted with executive and legislative authority should steadfastly oppose any addition to our State indebtedness and any increase of the public burdens. No measure tending to add to the burdens of the taxpayers ought to receive the sanction of the Executive or Legislature. On the contrary, it is to be hoped that the Legislature will, by a short and economical session, make a large reduction in the public expenditure during the current fiscal year.

It is very certain, also, that if it were ever proper to donate public funds to corporations or to individuals, the present would be no time for such generosity. The public revenues should be sacredly devoted to the necessary expenses of the Government and to the reduction of the State debt. If the Executive or Legislature choose to make donations out of their private funds, they have a right to do so; but they are the mere agents of the people, and have no moral right to give away the money of their constituents, except in aid of certain great charities, which are the proper objects of public benefaction. Even in reference to these, when the State is largely in debt, the maxim of being just before being generous, ought to suggest prudence in giving.

On this subject I may be allowed to express my regret that the amendments to section twenty-six of Article IV of the Constitution, which were passed in eighteen hundred and sixty-two, restricting in certain particulars the powers of the Legislature, failed to obtain the requisite number of votes in the Legislature of eighteen hundred and sixty-three. Those amendments, in substance, if adopted, would be a step in advance toward a more sound and rational theory of legislation. The danger now and always is, not that we shall have too many checks upon legislative power, but that we shall have too few. The necessary objects of legislation are not numerous. It will be evident to any person, upon inspection of our volumes of session laws, that three fourths of those volumes, and more than three fourths of the time consumed at each session, have been occupied by special legislation not conducive to the public interests. Franchises instead of being granted by the Legislature, should be controlled by the local authorities under such provisions

in reference to public competition, and such limitation as to duration, as would subserve the interests of the public. All other objects aimed at by special enactment should be attained by general laws.

The general statutes of the State are in great need of revision, and a commission for this purpose would not involve burdensome expenditure, and would, if properly constituted, be of great service to the State. Such a commission, however, to be useful, should be composed of able lawyers, selected without reference to political opinions, or to any consideration except their fitness for this responsible duty.

Frequent official changes, in many instances, especially in judicial offices, have been found by experience to be detrimental to the public interests.

The opinion has been gaining ground that the desirable quality of independence in the judiciary will be best secured by substituting for the present system that which formerly existed, of appointing Judges to hold office during good behavior. Experience has satisfied most intelligent observers that the election of Judges by popular vote, for even so long a period as ten years, renders the judiciary too subject to be influenced by partisan clamor, and tends to destroy that firmness and independence so desirable upon the bench. The present system has the further effect of rendering the ablest lawyers indisposed to surrender their professional business for a judicial office, when the latter position is subject to expiration after a few years, and then to the contingencies of nominating conventions and political contests.

The reformation of our present defective State Prison system, and the organization of a State University, are objects of great public importance, the attainment of which I should be glad to facilitate in any way within my power.

In conclusion, I have only to add, that in the discharge of my official duties I shall hope for the aid and support of all good citizens, trusting for guidance and direction to that Divine Providence who holds the destinies of nations as of individuals in His sovereign control. It is only by obedience to His laws, and reverence for His authority, that private citizens and public officers can expect permanent happiness and success in either public or private life.

After the address the Convention re-assembled, and the object for which it assembled having been accomplished, it dissolved, the Senate retiring to its chamber.

IN SENATE.

The Senate met at two o'clock and forty-five minutes P. M.

President in the Chair.

Roll called.

Quorum present.

Mr. Pearce moved that a committee be appointed to wait upon the Lieutenant-Governor, and inform him the Senate was ready to receive him.

Messrs. Pearce, Johnson, and Rose, composed the committee.

Shortly afterward, the committee returned escorting Lieutenant-Governor Holden.

Being received, ex-Lieutenant-Governor Machin said :

SENATORS :—I have the honor of introducing to you the Honorable William Holden, Lieutenant-Governor of the State of California and President of the Senate.

Whereupon Lieutenant-Governor Holden delivered the following address :

ADDRESS OF LIEUTENANT-GOVERNOR.

SENATORS:—Having been elected by the free voters of this State to the office of Lieutenant-Governor, and having cheerfully taken the oath of office prescribed by our organic law, to support the Constitution of the United States and of this State, and to faithfully perform the duties of my office, I enter upon the discharge of these duties with a full knowledge of the responsibility of my position and the obligation my oath has placed me under to the people of this State, to perform these duties faithfully and honestly. In presiding over the deliberations of this body, although elected as a partisan, as all officers of a political nature are, I earnestly hope that in the interpretation of the rules you have adopted for your guidance no considerations of a political nature will ever induce me to knowingly violate in the least the oath I have to-day taken. You have made your rules. I will enforce them, though it do strike down the dearest personal or political friend I may have on this floor. To the able and experienced Senators I see before me it would seem almost useless to suggest how much the dispatch and correctness of business depends upon a strict construction and rigid enforcement of the rules you have adopted for your government. I shall, therefore, confidently rely upon the hearty co-operation of the members of this body, acting like myself under the solemnities of an oath, to cheerfully aid me in the enforcement of these rules, that we may not only do credit to ourselves as a body, but advance the material interest of the Commonwealth. Being a legislator only in a limited sense, and not being by the law permitted to mingle in debate, I avail myself of this opportunity to return through you, to the people of this State, my sincere thanks for the distinguished honor they have conferred upon me, and to assure them that no act of mine shall ever prove that their confidence has been misplaced.

The recent elections, not only in our own but in our sister States, have demonstrated to the world that the American people, though at times led astray by excitement, are deeply impressed with an earnest devotion to constitutional liberty, and that, at their "second sober thought," they are ever ready to rectify the wrongs committed under unusual and extraordinary excitement; hence, while I earnestly hope that laws passed, under such circumstances, of a proscriptive character, requiring unusual tests from eminent and worthy persons as a condition to engage in their legitimate business, may be repealed, I as earnestly hope that no measures of a retaliatory nature may be passed or attempted, for such would be violations of the plainest principles of wise statesmanship, as well as the Christian virtues. I would not throw a doubt upon the integrity of this body, elected when or by whom it may have been, by even suggesting that it were possible for it to fail to carry out the known wishes of the people it represents, as clearly and emphatically manifested in our late elections. Obedience to the wish of the majority, expressed in a constitutional manner, and not violative of its provisions, is so clearly the quintessence of republican institutions, that he or they who fail to heed that wish, when thus expressed, have but little cause to boast of patriotism or devotion to principle. With the Constitution of the United States defining the powers granted by the States to the Federal Government, and those prohibited to the States in the one hand, and the Constitution of our State limiting the powers of the Legislature in the

other, together with an honest determination to advance the material interests of a confiding constituency, it will be impossible in our Legislature to materially err. If restrained within these limits, no power on earth has a right to question our acts, because one sovereign cannot question the acts of another. If governed by an earnest desire to lighten the burdens of taxation, to advance the interest of the laboring classes, and to ameliorate the condition of the inmates of our asylums, you will receive the sincere thanks of a generous people.

If proper measures are adopted to induce immigration, your hills and your valleys will be settled by the hardy sons of the green Isle of Erin, the sea-girt shores of England, the sunny plains of France, the mountains of Switzerland, and the low lands of Holland. Your mountains will yield up their treasure, "the wilderness and the solitary places shall be glad for them, and the desert will rejoice and blossom as the rose." The first rays of the morning sun shall tinge the spires of a thousand temples of learning; the songs of civilization shall regale the ear at every turn in life; instead of the crescent shall wave the banner of the cross; instead of the pagoda shall rise temples in which to worship the ever living God. If you encourage our agricultural interest, the mother of commerce and the mechanic arts, the joyous hum of the workshop will greet your ears, and our sails bearing our produce to distant climes will whiten every ocean. In the conflict of opinion which will inevitably arise in the discussion of questions upon which Senators may honestly differ, if the same charity is extended to others as is demanded by each, when our labors are brought to a close and the gavel falls dissolving this body, the most kindly feelings may exist between its departing members, and in after life our minds may revert back to the time spent here as the brightest oasis in the dreary pilgrimage of life.

Mr. Pearce offered the following resolution :

Resolved, That the thanks of this body be tendered to ex-Lieutenant-Governor Machin for the courteous, efficient, and impartial manner in which through his official term he has presided over this Senate.

Adopted unanimously.

MR. PRESIDENT : The Joint Committee on Printing, having considered the subject recommitted to this committee with special instructions from the Senate, beg leave to report that they recommend the printing of the Governor's Biennial Message and accompanying documents, and of the Governor's Inaugural Address, in the English language, and that the number of each shall be as follows, viz :

Of the Governor's Biennial Message, four thousand three hundred and twenty copies.

Of the Governor's Inaugural Address, four thousand three hundred and twenty copies.

Of the Report of the Superintendent of Public Instruction, four thousand three hundred and twenty copies.

Of the Report of the Trustees of the State Prison, four thousand three hundred and twenty copies.

Of the Reports of the Trustees and Resident Physician of the Insane Asylum, three thousand one hundred and twenty copies.

Of the Report of the State Geologist, two thousand four hundred copies.

Of the Report of the Controller, nineteen hundred and twenty copies.

Of the Report of the Surveyor-General, nineteen hundred and twenty copies.

Of the Report of the Adjutant-General, nineteen hundred and twenty copies.

Of the Report of the State Treasurer, nineteen hundred and twenty copies.

Of the Report from the Secretary of the Agricultural and Mining College, nineteen hundred and twenty copies.

Of the Report of the Secretary of State, nine hundred and sixty copies.

Of the Report of the State Harbor Commissioners, nine hundred and sixty copies.

Of the Report of the Attorney-General, nine hundred and sixty copies.

Of the Report of the Trustees of the Reform School, nine hundred and sixty copies.

Of the Report of the Capital Commissioners, nine hundred and sixty copies.

Of the Report of the Directors and of the Commissioners of the Institute for the Deaf and Dumb, nine hundred and sixty copies.

Of the Report of the Yosemite Valley Commissioners, nine hundred and sixty copies.

Of the Report of the State Librarian, four hundred and eighty copies.

Of the proposed Amendments to the Constitution of the United States, two hundred and forty copies.

And that the State Printer be and is hereby instructed to furnish, out of the numbers above ordered, as follows :

To the Adjutant-General, five hundred copies of his report, for distribution officially.

To the Superintendent of Public Instruction two thousand copies of his report, for distribution to the teachers and School Trustees throughout the State and for exchange with other States.

To the Surveyor-General five hundred copies of his report, for distribution to the County Surveyors, Assessors and County Clerks of this State.

To the Attorney-General one hundred copies of his report, for distribution to the District Attorneys of this State.

To the Directors of the Insane Asylum two hundred and forty copies, and to the Resident Physician two hundred and forty copies, of their report, for distribution at their discretion.

And to deliver the remainder, as soon as printed, to the Sergeants-at-Arms of the two Houses, to be distributed *pro rata* among the members of the Legislature.

In compliance with special instructions of the Senate, your committee have endeavored to ascertain the cost of translating and of printing in the Spanish language the Governor's Biennial Message, the Governor's Inaugural Address, the Controller's Report, the Treasurer's Report, the Surveyor-General's Report and the Report of the Superintendent of Public Instruction, which last named document it was proposed in your committee's original report should be published in Spanish in place of the Adjutant-General's Report. No positive estimate of the actual cost of these items can be safely given without a careful computation of the contents of each document; but a comparative basis of calculation, sufficient for all practical purposes, may be found in the actual expense incurred in preceding years by the translation and printing in Spanish of the several reports of the same officials. By the accompanying statement from the State Controller, it will be seen that the cost of translating the Governor's Biennial Message for eighteen hundred and sixty-five, and the Treasurer's, Controller's and Surveyor-General's reports accompanying, was nine hundred and ninety-two dollars and forty-six hundredths, at thirty-four cents per folio; but as the present contract price is fifty cents per folio, the cost of the same would be one thousand four hundred and sixty-two dollars and fifty cents :

Cost at present contract.....	\$1,462 50
Report of Sup't Public Instruction, translating (1863).....	698 00
To which add Governor's Inaugural (estimated).....	156 50
Estimated cost of translation for 1867.....	\$2,317 00
Cost of printing the Biennial Message, Controller's, Surveyor-General's and Treasurer's reports in Spanish (1865)	\$2,317 00
Report of Sup't Public Ins., 1863 (not published in 1865) ...	1,036 72
Add Governor's Inaugural (estimated).....	276 39
Estimated cost of printing in Spanish.....	\$3,630 11
Add estimated cost of translation.....	2,317 00
Total estimated expense.....	\$5,947 11

Your committee find that whilst the Constitution requires the laws to be published in the Spanish language, no declaration of legislative enactment defining law, or to what extent publication in that language shall be effected, can now be found on the statute books. The only provision relating thereto (contained in the Act prescribing the duties of the Secretary of State, Hittell's Digest, p. 1006, Sec. 15) declares only the manner in which the contract for such translation shall be awarded, in accordance with the law in force on that subject; but by the same Act all prior Acts regulating the publication of the laws in the Spanish language were repealed. The constitutional provision remains obligatory, so far as the publication of the statute laws are concerned, without any of the ordinary statutory machinery to provide for its execution having been furnished by the legislative authority.

At the sixteenth session of the Legislature, the Act "concerning the translation of Executive reports" was passed (Stat. 1865-6, p. 869), which briefly declared that "all translations of the biennial Executive reports shall be made under such provisions as the Legislature may enact, and no claim for translating such reports shall be audited or allowed except under the provisions of such enactment."

As to the "propriety of translating into Spanish any documents the publication of which is not required by the Constitution," your committee is equally divided in opinion; but agree, unanimously, that such printing would require the passage of a law to authorize the translation into the Spanish language of any of the documents referred to your committee, and to provide for the auditing and payment of the claim for such translation.

Your committee have observed that the reports of the Harbor Commissioners, and of the Directors and of the Commissioners of the Institute for the Deaf, Dumb and Blind, have been printed and furnished to the members of the Legislature by other parties than the State Printer. We would beg leave to suggest, that as it is evident that the expense incurred in the printing of official documents in that manner must be paid out of funds appropriated, applicable to other purposes, such a course should not be pursued whilst the State elects a State Printer to do all such work at a uniform price, in a uniform manner; and especially so, as they must

necessarily be reprinted by the State Printer, at additional cost to the State, for publication with the Journals.

We therefore present the accompanying resolution, and recommend its adoption.

All which is respectfully submitted.

E. W. ROBERTS,
for Senate Committee.

GEO. N. PAYNE,
for Assembly Committee.

Resolved by the Senate, the Assembly concurring, That all printing (except advertising) ordered or required by the officers of any State Board or State institution shall be executed by the State Printer.

Mr. Mandeville moved the adoption of the original report made by the same committee, which had been recommitted with special instructions to report concerning the translation of public documents into the Spanish language and the printing thereof.

Mr. Ewer offered the following amendment to the original report :

So ordered.

AYES—Messrs. Banning, Conn, Curtis, Freeman, Green, Hunter, Johnson, Kincaid, Lewis, Mandeville, McDougall, Murphy, Pearce, Pendegast, Rose, Saunders, Shaw—17.

NOES—Messrs. Beach, Belden, Bradley, Chappell, Conly, Ewer, Hager, Hardy, Heacock, Lawrence, Mizner, Morrill, Murch, Perley, Roberts, Robinson, Teegarden, Tubbs, Tweed, Wadsworth, Wolcott—21.

So the motion was lost.

Mr. Roberts moved the adoption of the supplementary report.

Mr. Mandeville offered an amendment, that four hundred and eighty copies of the Governor's Inaugural Address be printed in Spanish.

The ayes and noes were demanded by Messrs. Pearce, Mandeville and Bradley.

The vote was as follows :

AYES—Messrs. Banning, Conn, Curtis, Freeman, Green, Hunter, Johnson, Kincaid, Lawrence, Lewis, Mandeville, McDougall, Morrill, Murphy, Pearce, Pendegast, Rose, Saunders, Shaw—19.

NOES—Messrs. Beach, Belden, Bradley, Chappell, Conly, Ewer, Hager, Hardy, Heacock, Mizner, Murch, Perley, Roberts, Robinson, Teegarden, Tubbs, Tweed, Wadsworth, Wolcott—19.

The President voted aye.

So the amendment was adopted.

Mr. Mandeville moved to amend, by ordering printed in Spanish, four hundred and eighty copies of the Governor's Biennial Message.

The ayes and noes were demanded by Messrs. Murch, Mizner and Bradley.

The vote was as follows :

AYES—Messrs. Banning, Conn, Curtis, Freeman, Green, Hunter, Johnson, Kincaid, Lawrence, Lewis, Mandeville, McDougall, Morrill, Murphy, Pearce, Pendegast, Rose, Saunders, Shaw—19.

Adopted.

Mr. Wadsworth offered an amendment, that seventy copies of the Controller's report be allowed that officer for distribution among the States of the Union.

On the adoption of the report as amended, the ayes and noes were demanded by Messrs. Chappell, Mizner and Murch.

The vote was as follows :

NOES—Messrs. Beach, Belden, Bradley, Chappell, Conly, Ewer, Hardy, Heacock, Murch, Perley, Roberts, Robinson, Teegarden, Tubbs, Tweed, Wadsworth, Wolcott—17.

The rules were suspended for the notice of the introduction of a bill given by Mr. Shaw, as follows :

MESSAGE FROM THE ASSEMBLY.

The following message was received from the Assembly :

ASSEMBLY CHAMBER,
December 18th, 1867. }

Mr. PRESIDENT : I am directed to inform the Senate that the Assembly is now ready to meet the Senate in Joint Assembly to ballot for a United States Senator under the Act of Congress.

J. A. EAGAN,
Chief Clerk.

The hour of twelve o'clock, meridian, fixed by said Act of Congress for meeting in Joint Assembly for the purpose named in the message just read, having arrived, the Senate proceeded in a body to the Assembly Chamber.

IN JOINT ASSEMBLY.

Pursuant to an Act of Congress entitled an Act to regulate the times and manner of holding elections for Senators in Congress, approved July twenty-fifth, eighteen hundred and sixty-six, the Senate and Assembly met in Joint Assembly.

The President of the Senate and Speaker of the Assembly presided.

The roll of the Senate was called, and a quorum responded, as follows :

Banning, Beach, Belden, Bradley, Chappell, Conly, Conn, Curtis, Ewer, Freeman, Green, Hager, Hardy, Heacock, Hunter, Johnson, Kincaid, Lawrence, Lewis, Mandeville, McDougall, Mizner, Morrill, Murch, Murphy, Pearce, Pendegast, Perley, Pratt, Roberts, Robinson, Rose, Saunders, Shaw, Teegarden, Tubbs, Tweed, Wadsworth and Wolcott.

The roll of the Assembly was called and a quorum responded, as follows :

Messrs. Ables, Angney, Ayer, Batchelder, Battelle, Bever, Biggs, Bird, Broderson, Brown of Contra Costa, Brown of Tulare, Buckbee, Caldwell, Canavan, Church, Clark, Cochran, Coggins, Comte, Connely, Crigler, Cureton, Davies, Days, Dornin, Downer, Dryer, Dwinelle, Ellis, Fairchild, Farish, Frisbie, Gildea, Giltner, Gregory, Green, Hayes, James, Jones, Kelley, Lee, Lupton, Mace, Mahon, Mardis, Martin, Mattingly, McElhany, Meagher, Mentzell, Middleton, Moore, Morrow, Newell, Newsom, Oliver, O'Malley, Ord, Papy, Pardee, Payne, Rector, Rollins, Russ, Scudder, Smith, Spencer, Spilman, Steele, Tully, Tuttle, Waldron, Wand, Warfield, Watson, Westmoreland, White, Willets, Wolleb and Mr. Speaker.

The Secretary of the Senate read from the Journal of the Senate so much of the proceedings of Tuesday, December seventeenth, being the second Tuesday after the organization of the seventeenth session of the Legislature, as related to a ballot for the election of a United States Senator to succeed the Honorable John Conness; whereby it appeared that thirty-eight Senators were present and voted each his choice, and that Thomas A. Brown, of Contra Costa, had received twenty votes, being a majority of all the votes cast.

The Clerk of the Assembly read so much of the Journal of the Assembly as related to the proceedings of that body in regard to the election of a United States Senator, held in accordance with the Act of Congress above referred to, and it appeared that no person voted for had received a majority of the votes cast in both houses.

The President directed the Secretary of the Senate to read the Act of Congress requiring the Joint Convention held this day. From the official publication it was read as follows:

AN ACT to regulate the times and manner of holding elections for Senators in Congress.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Legislature of each State which shall be chosen next preceding the expiration of the time for which any Senator was elected to represent said State in Congress shall, on the second Tuesday after the meeting and organization thereof, proceed to elect a Senator in Congress in the place of such Senator so going out of office, in the following manner: Each house shall openly, by a *viva voce* of each member present, name one person for Senator in Congress from said State, and the name of the person so voted for who shall have a majority of the whole number of votes cast in each house shall be entered on the Journal of each house by the Clerk or Secretary thereof; but if either house shall fail to give such majority to any person on said day, that fact shall be entered on the Journal. At twelve o'clock, meridian, of the day following that on which proceedings are required to take place as aforesaid, the members of the two houses shall convene in Joint Assembly, and the Journal of each house shall then be read; and if the same person shall have received a majority of all the votes in each house, such person shall be declared duly elected Senator to represent said State in the Congress of the United States; but if the same person shall not have received a majority of the votes in each house, or if either house shall have failed to take proceedings as required by this Act, the Joint Assembly shall then proceed to choose, by a *viva voce* vote of each member present, a person for the purpose aforesaid; and the person having a majority of all the votes of the said Joint Assembly, a majority of all the members elected to both houses being present and voting, shall be declared duly elected; and in case no person shall receive such majority on the first day, the Joint Assembly shall meet at twelve o'clock, meridian, of each succeeding day during the session of the Legislature, and take at least one vote until a Senator shall be elected.

SEC. 2. And be it further enacted, That whenever, on the meeting of the Legislature of any State, a vacancy shall exist in the representation of such State in the Senate of the United States, said Legislature shall proceed, on the second Tuesday after the commencement and organization of its session, to elect a person to fill such vacancy in the manner hereinbefore provided for the election of a Senator for a full term; and if a vacancy shall happen during the session of the Legislature, then on the second Tuesday after the Legislature shall have organized and shall have notice of such vacancy.

SEC. 3. And be it further enacted, That it shall be the duty of the Governor of the State from which any Senator shall have been chosen as aforesaid, to certify his election under the seal of the State to the

President of the Senate of the United States, which certificate shall be countersigned by the Secretary of State of the State.

Morse and Lansing Haight, their associates or assigns, to construct and maintain a wharf at Horton's addition to New San Diego, in the County of San Diego—have had the same under consideration and made amendments thereto, and recommend its passage as amended.

M. presented the same to the Governor for his approval.

MURCH, Chairman.

Mr. Belden, Chairman of the Judiciary Committee, presented the following :

Mr. PRESIDENT : The Judiciary Committee, to whom was referred Senate Bill No. 14—An Act to provide for the distribution of the reports of the Supreme Court ;

Also, Senate Bill No. 13—An Act to exempt certain property from execution ;

Also, Senate Bill No. 3—An Act to repeal an Act to exclude traitors and alien enemies from the Courts of justice in civil cases, approved April twenty-fifth, eighteen hundred and sixty-three, and the Acts supplemental and amendatory thereof ;

Also, Senate Bill No. 37—An Act to authorize Richard Abbey, administrator of the estate of R. H. Farquhar, deceased, to sell certain land and real estate ;

Have had said bills under consideration and report the same back, and recommend their passage without amendment.

Also, Senate Bill No. 47—An Act to restore and protect the fund for current expenses in San Luis Obispo County—have had the same under consideration and report the same back with a substitute, and recommend the adoption of the substitute.

Also, Senate Bill No. 24—An Act to fix and determine the salary of the County Judge in and for the County of Santa Cruz, State of California—and report the same back with a substitute, without recommendation.

Since the last mentioned bill, as introduced, as well as others of a like nature which have been referred to your committee, propose to increase the salaries of the County Judges elect in various counties, your committee have deemed it proper to embody their views in their report, as follows :

Section fifteen of Article six of the Constitution, declares : " That Justices of the Supreme Court, District Judges and County Judges shall severally, at stated times during their continuance in office, receive for their services a compensation which shall not be increased or diminished during the term for which they shall have been elected ; *provided*, that County Judges shall be paid out of the County Treasury of their respective counties."

No question can be made that any attempt to increase or diminish the compensation after the judicial incumbent was actually installed in office would meet the express prohibition of the Constitution.

But it is claimed that such change may be made after the election and

before the commencement of such judicial term. It is possible that the section in question may bear this construction; but it is very evident that the spirit and intent of the organic law would be clearly violated by such interpretation. It was doubtless intended to place judicial officers beyond the reach alike of partisan friendship or political enemies, and thus secure complete independence in this branch of the Government. This wise and beneficial policy would be utterly defeated were such applications favored by the Legislature.

Your Committee have also had under consideration Senate Bill No. 12—An Act to amend an Act entitled an Act to fix the salaries of the County Judges of Shasta, Trinity and Tehama and to provide for the payment of the same—and report the same back and recommend its indefinite postponement.

Also, your Committee have had Senate Bill No. 42—An Act to fix the salary of the County Judge of San Bernardino County—and report the same back with an amendment and without recommendation.

BELDEN, Chairman.

REPORTS.

Mr. Lawrence, from the Mariposa delegation, made the following report:

MR. PRESIDENT: The delegation to whom was referred Assembly Bill No. 24—An Act amendatory of an Act fixing the salary of the County Judge of Mariposa County—respectfully submit the following report:

The bill referred to provides for the reduction of the salary of the County Judge from three thousand dollars to two thousand five hundred dollars per annum. The salary as at present fixed by law is payable out of the County General Fund in county scrip, worth about seventy-five cents on the dollar, amounting to a little over two thousand dollars in cash. The amount of litigation in the county renders it necessary for the Judge to devote his time and attention to the duties of his office, to

the exclusion of other business avocations. The salary only affords a bare living upon an economical basis. It amounts to less than one-half the pay of the County Clerk, which is a feed office, and about one-fourth of the Sheriff's perquisites and fees, which for ten years past have amounted to from ten to fourteen thousand dollars per annum.

The people require retrenchment and reform, but not to the extent of starving the County Judge or sending his family out in the cold world to gather acorns and pine nuts.

Furthermore, I am opposed to the reduction of the salaries of judicial officers, upon general principles; believing that they should be placed in a position, pecuniarily, that would render them invulnerable even to a suspicion of yielding to corrupt influences.

For these reasons, I desire to have my vote recorded, in every instance, against this class of propositions—waiving any claim to buncombe on the ground of economy when it has to be purchased at the price of pauperizing the Judiciary.

The bill is therefore respectfully returned, with a recommendation that it may be indefinitely postponed.

LAWRENCE, for Delegation.

Mr. Wolcott verbally reported back Senate Bill No. 9—An Act to authorize the County Clerk of Mono County to act as County Superintendent of Public Schools—recommending its passage.

SPECIAL ORDER.

The Senate went into executive session for the consideration of the Governor's messages of December twelfth and fourteenth, eighteen hundred and sixty-seven, nominating Port Wardens for the Port of San Francisco, the special order of the day.

IN EXECUTIVE SESSION.

Mr. Mandeville moved a call of the Senate.

On dividing, the Senate stood sixteen in favor and sixteen against adopting the motion.

The President, in the exercise of his constitutional privilege, voted aye, and the motion for a call of the Senate prevailed.

The roll of the Senate being called, all of the Senators were present or absent on leave, except Mr. Murphy.

Mr. Murphy shortly after appeared at the bar of the Senate and was admitted.

On motion of Mr. Roberts further proceedings under the call were dispensed with.

Mr. Ewer moved to postpone the confirmation of R. W. Heath and Joseph Austin, as Port Wardens, until the fourth day of March next.

Mr. Mizner called for a division of the motion.

So ordered.

The Senate refused to postpone.

Mr. Curtis, in explanation of his declining to vote on the foregoing question, stated that he had paired with Mr. Belden, who was absent.

Mr. Mizner moved to make the further consideration of the nomination the special order for Thursday, the twenty-third day of January, instant.

The President ruled the point of order well taken.

Mr. Roberts gave notice of a motion to reconsider the vote whereby the Senate postponed the consideration of the appointment of Joseph Austin.

On the question, Shall the Senate advise and consent to the appointment of Charles Wilson as Port Warden of the Port of San Francisco? the roll of the Senate was called, with the following result :

FURTHER REPORTS.

The rules were suspended for the introduction of reports :

Mr. Lawrence presented the following report :

MR. PRESIDENT: Your Committee, to whom was referred Senate Bill No. 111—An Act concerning hogs found running at large in the County of Mariposa—would respectfully report the same back with an amendment of section three, requiring ten days notice instead of five, as in the original bill; also an amendment of section five, extending the time required for the owners of the trespassing hogs to prove property to thirty days instead of five.

A careful examination of the bill shows that in substance it corresponds with the Act of April twenty-first, eighteen hundred and fifty-six, applying to Marin, Sacramento, San Francisco, Alameda, Stanislaus, Yuba and Santa Clara; with Act of March sixteenth, eighteen hundred and sixty-three, amended to apply to Butte County, and with Act of March twenty-fourth, eighteen hundred and sixty-four, applying the same provisions to Sutter, San Joaquin, Yolo, San Mateo, Santa Cruz, Santa Barbara, San Luis Obispo, San Bernardino and Tuolumne.

The objections to the bill on the ground of unconstitutionality appear to be invalid, as the proceedings in case of trespass under the Act herewith reported constitute a "due process of law."

As in all local police regulations, the process is necessarily summary, and dispenses with the slow and devious methods which would defeat the object of the bill.

In addition to this, I would respectfully represent, that it is nearly the unanimous wish of the people of Mariposa County that this bill shall pass; their general verdict being to the effect that stray hogs are *de facto* a nuisance and should be restrained of their "personal liberty."

Wherefore, the bill is respectfully reported back amended as aforesaid, with a recommendation that it be placed on the general file.

LAWRENCE, Special Committee.

Mr. Roberts, from the Nevada delegation, made the following report :

MR. PRESIDENT: The special committee composed of the Nevada delegation, to whom was referred Assembly Bill No. 31—An Act for the protection of Greenwood Cemetery and other cemeteries in the vicinity of Grass Valley, Nevada County—report the same back with amendments, and recommend the passage of the bill as amended.

But by reason of there being no line of travel open direct between Napa and the Capital, Mr. Moran is compelled to reach the Capital via San Francisco and to return in the same way, thus increasing the distance travelled by him, in going and returning, to three hundred and seventy miles, which, at twenty cents per mile, amounts to seventy-four dollars; for four days attendance, at two dollars per day, fourteen dollars; total, eighty-eight dollars. Wherefore, your Committee recommend that that the words and figures "one hundred and six dollars and fifty cents (\$106 50)," be stricken from the resolution and the words "eighty-eight dollars" be inserted instead thereof, and that the resolution so amended be passed.

Wherefore your committee recommend the adoption of the following resolution.

HEACOCK, Chairman.

With the foregoing report there was a resolution authorizing the payment of the sums therein named, which was adopted.

Mr. Ewer, Chairman of the Committee on Claims, made the following report:

MR. PRESIDENT: The Committee on Claims, to whom was referred Senate Bill No. 127—An Act to purchase a transit instrument for the office of the Surveyor-General—have had the same under consideration, and report the same back without recommendation.

The committee instructed its clerk to call on the Honorable John W. Bost, Surveyor-General of the State of California, to inquire if the office of the Surveyor-General stood in need of any such instrument. He replied that although there was no immediate use for it at this very moment, yet it was impossible to say how soon some contingency might arise which would necessitate its purchase. He believed that the State would suffer detriment by the use of defective or imperfect instruments at any time, and the instrument had been pronounced by competent judges as good as could be made in Europe. Therefore he thought the State

would be benefited by its purchase at the price named in the bill, rather than at any future period to suffer for the want of proper instruments to complete the State surveys, as the only instrument of the kind now in his office was not considered reliable.

Also, having had under consideration Assembly Bill No. 62—An Act for the relief of James P. McFarland and his assigns—report the same back and recommend that it be referred to the Los Angeles delegation.

Also, Assembly Bill No. 70—An Act for the relief of James H. Yeates—report the same back and recommend its passage.

MACLAY, Chairman.

REPORT.

Mr. Pendegast, from the Joint Committee on Conference, made the following report:

Mr. PRESIDENT: Your Committee of Free Conference on the disagreeing vote of the Senate and Assembly on Senate Concurrent Resolution No. 44, relative to appointment of Joint Committee of four from the Senate and four from the Assembly to investigate certain charges of corruption and allegations in relation to the last Senatorial election, having duly considered the premises, beg leave to submit the following report:

Your committee find it impossible to agree upon the adoption of the resolution, either with or without the House amendment, and should, perhaps, report the fact of this disagreement as the sole result of their conference and ask to be discharged.

But your committee are so fully impressed with the importance of the subject presented for their consideration, that they are willing to incur the charge of presumption in offering to the Senate and Assembly a suggestion and a resolution.

There seems to be a difference between the two branches of the Legislature upon a collateral question which has, perhaps, more than anything else, tended to produce this disagreement. The members of the Assembly seem to entertain the opinion that the subject of the resolution is a matter for separate, rather than joint action. The majority of the committee seem to coincide in this view.

The committee is unanimous on one subject: that an investigation ought to be had if the charges mentioned in the resolution are properly made—but the committee differ as to whether the charges are sufficiently specific at the present time.

In order, therefore, that the members of each house may be enabled to proceed in the matter according to their separate and differing views, your committee, by a vote of the majority thereof, recommend the adoption of the following resolution:

Resolved, That the further consideration of Senate Joint Resolution No. 44 be indefinitely postponed.

PENDEGAST,
MORRILL,

FARISH,
ANGNEY,
BIGGS,

PRESIDENT: The Committee on Commerce and Navigation, to whom was referred Assembly Bill No. 205 (substitute for Assembly Bill No. —)—An Act to authorize Titus Hale, Austin Walrath, William McCall and Richard P. Tenney, their associates and assigns, to construct a railroad from the City of Monterey to the Rancho Natividad, and to construct a wharf at the City of Monterey—have had the same under consideration, report it back and recommend its passage.

Your committee also recommend that Senate Bill No. 186—An Act to establish the office of State Shipping Commissioners of the Port of San Francisco, and to regulate the duties thereof—heretofore referred to them, being of great importance to the commercial interests of the State, that the same be printed.

MIZNER, Chairman.

Mr. Pratt, Chairman of the Committee on Corporations, made the following report:

MR. PRESIDENT: The Committee on Corporations have had under consideration Senate Bill No. 198—An Act to amend an Act entitled an Act to incorporate the Town of Santa Barbara.

The second section confers upon the Trustees of said town authority to sell, at their own will and discretion, all of the lands belonging to said town, while it proposes no security or safeguard of any description for the faithful execution of the power or proper application of the proceeds of such sales. It also ratifies and confirms, so far as legislative authority can do it, all such sales heretofore made.

No facts are brought to the knowledge of the committee which tend

in any degree to justify so extraordinary an enactment, and we report back the bill recommending its indefinite postponement.

PRATT, Chairman.

Mr. Pratt, Chairman of the Committee on Corporations, made the following report :

MR. PRESIDENT: Your Committee on Corporations have had under consideration Senate Bill No. 241—An Act to authorize Henry Connelly, E. Martin, John B. Frisbie, their associates and assigns, to construct and maintain water works for the purpose of supplying the Town of Vallejo with pure fresh water; also, Assembly Bill No. 162—An Act to authorize J. E. Skidmore and others, to construct and maintain, own, hold and work a line or lines of telegraph in this State, between the Towns of San Mateo, in San Mateo County, and the Town of Pescadero, Santa Cruz County.

These proposed laws belong to the same class as Senate Bills Nos. 96, 142 and 176, recently reprobated by the Judiciary Committee of this body; their purpose and practical effect being, in our estimation, to create indirectly a corporation by special enactment for other than municipal purposes. Of such legislation, we entertain the same general opinions expressed by the Judiciary Committee in their report on the bills above referred to, and it is unnecessary to repeat the reasons assigned for those opinions. If not in direct violation, it would at least be an evasion of the provisions of the State Constitution on the subject of corporations.

Your committee are further of opinion, that all the rights and privileges sought or to be granted by the bills now under considerations, are attainable under the general laws for the organization of telegraph and water companies; and this being the case, we think the parties desiring to avail themselves of such rights and privileges should go to those general laws for that purpose, even if there were no constitutional objections to the present bills.

We feel constrained, therefore, to report these bills back with a recommendation that they do not pass.

PRATT, Chairman.

Mr. Belden, Chairman of the Judiciary Committee, made the following report :

MR. PRESIDENT: The Judiciary Committee, to whom was referred Senate Bill No. 151—An Act to amend an Act entitled an Act, approved April twenty-ninth, eighteen hundred and fifty-seven, entitled an Act amendatory of and supplementary to an Act in relation to personal mortgages in certain cases, passed May eleventh, A. D. eighteen hundred and fifty-three;

Mr. Pearce proposed to make a motion to reconsider the vote whereby the Senate ordered engrossed for third reading Senate Bill No. 220—An Act changing the location of the Deaf and Dumb Asylum—of which motion he had given notice last Friday.

It being objected, that the motion to reconsider was now out of order, three legislative days having intervened since the notice was given, Mr. Pearce raised a point of order that the notice of the motion should have gone into the unfinished business of the Senate in consequence of the Senate having adjourned before he had had an opportunity to make his motion.

Resolved, That the vote sustaining the previous question be reconsidered, and that the motion to reconsider the vote by which Senate resolutions relating to the action of Congress regarding the proposed impeachment of the President were adopted be amended by adding, "and this order shall take precedence of all other orders of the day until this order shall be exhausted."

Mr. Heacock objected for the reason that the minority in the Senate had made and continued factious opposition, which should have ceased within two hours after the struggle commenced, which has prolonged the issue to so late an hour, and therefore should continue to object to the resolution.

The resolution being amended, so as to provide that the consideration of the resolutions offered by Mr. Heacock should take precedence of every other order until this order be disposed of, Mr. Heacock withdrew his objection and the resolution was adopted.

Then, on motion of Mr. Beach, at ten o'clock and forty minutes P. M., the Senate adjourned.

There being a tie, the President, in the exercise of his constitutional privilege, voted in the affirmative, and so the resolution was adopted.

On motion of Mr. Roberts, the Journal was corrected by striking out

the word "lobby" and inserting in lieu thereof the words "Senate floor," as the language used by him in his motion to have the Sergeant-at-Arms clear the Senate floor of all persons except Senators, officers, attachés, reporters, etc.

On motion of Mr. Maclay, the Senate reconsidered the vote whereby they refused to adopt the amendment to the Journal, offered by Mr. Hager, and the amendment was then adopted.

EWER, Chairman.

Mr. Ewer, Chairman of the Committee on Claims, made the following report :

Mr. PRESIDENT: The Committee on Claims, to whom was referred Senate Bill No. 24—An Act to pay the outstanding Indian War bonds issued by the State of California under the Act of the Legislature approved May third, eighteen hundred and fifty-two, and the Acts supplementary thereto ;

Also, Senate Bill No. 156—An Act to appropriate money to pay the outstanding Indian War bonds and interest coupons issued by the State of California under an Act of the Legislature, approved May third, eighteen hundred and fifty-two, and Acts supplementary thereto ;

Also, petitions from sundry holders of such bonds praying that provision for their payment may be made by the Legislature of this State ;

Having had the same under consideration, herewith report back a substitute for said bills, and recommend the passage of the substitute.

In the year eighteen hundred and fifty-two, the Legislature passed an Act funding outstanding Indian War claims to the amount of six hundred thousand dollars, and under the provisions of said law the State became absolutely liable to the holders of such bonds after a period of ten years, unless they were sooner paid by the General Government. On the fifth day of August, A. D. eighteen hundred and fifty-four, Congress passed a law appropriating nine hundred and twenty-four thousand two hundred and fifty-nine dollars and sixty-five cents (\$924,259 65), for Indian War expenses in California, said appropriation being made to the State for the liquidation of the then outstanding Indian War claims against her up to January first, eighteen hundred and fifty-four. No portion of said appropriation was received by the State, and on the eighteenth day of August, eighteen hundred and fifty-six, a supplemental Act was passed by Congress diverting the above appropriation from the Treasury of the State, as first made, to the holders of the bonds issued up to the said first day of January, A. D. eighteen hundred and fifty-four. So far as your committee have been able to ascertain, the above appropriation was made and has been exhausted in the payment of

Indian War bonds issued prior to January first, eighteen hundred and fifty-four.

Since said January first, eighteen hundred and fifty-four, there have been issued by the proper authorities, Indian War bonds under the Act of the Legislature of this State, approved April twenty-seventh, eighteen hundred and fifty-two, the sum of forty thousand two hundred dollars (\$40,200). The principal and interest of the last named sum will probably amount to about fifty-nine thousand eight hundred and ninety-eight dollars (\$59,898); of which there was paid by Act of the Legislature, approved March thirty-first, eighteen hundred and sixty-six, the sum of thirty-two thousand five hundred dollars (\$32,500), leaving a probable balance of twenty-six thousand dollars (\$26,000) principal and interest, now due to the holders of the outstanding bonds. This sum your committee have deemed advisable to appropriate to the payment of said bonds, specifying in the bill accompanying this report, the number, date and amount of each bond. In making this appropriation your committee believe that no loss can accrue to the State, even if there should not be the full amount outstanding as above stated, as no money could be drawn unless the bonds should be actually presented for payment, corresponding in number, date and amount with the appropriation.

In regard to the coupons detached from the Indian War bonds of eighteen hundred and fifty-two, the bonds having been paid by Congress, your committee are of the opinion that the bondholders, in accepting their pay under an Act appropriating the money directly to them instead of the State, thereby released the State from all claims for payment of said coupons, either moral, legal or equitable, and your committee therefore recommend that no appropriation be made to pay any coupons except such as may be affixed to and form part of bonds presented for payment.

Your committee have deemed it advisable to make the appropriation in the manner herein indicated, in order to save the swelling of our biennial volumes of statutes, by appropriating to each bondholder separately, and also as an act of justice to such bondholders, the Legislature only being in session for the term of four months out of two years.

Your committee, in the substitute bill herewith reported, have imposed the settlement of these bonds upon the State Board of Examiners, believing that the only just and proper mode of settlement.

EWER, Chairman.

Mr. Ewer, from the Committee on Claims, reported also a bill for an Act to appropriate money to pay the outstanding Indian War bonds of the State of California issued since January, eighteen hundred and fifty-four, under an Act of the Legislature, approved May third, eighteen hundred and fifty-two, and Acts supplementary thereto.

Mr. Green, from the San Francisco, Alameda and Marin delegations, presented the following report :

Mr. PRESIDENT: Your special committee, composed of the delegations from San Francisco, Alameda and Marin, to whom was referred Senate Bill No. 72—An Act to define and settle the limits and boundaries of the County of Marin—have had the same under consideration, and report the bill back, and recommend its passage as amended.

ROBINSON,
GREEN.

Mr. Robinson, from the Alameda delegation, made the following report :

Mr. PRESIDENT: The delegation to whom was referred Assembly Bill No. 383—An Act to amend an Act entitled an Act to provide for the election of Township Assessors in the County of Alameda, approved

March twenty-eighth, eighteen hundred and sixty-four—have considered the bill and recommend its passage.

ROBINSON, for Delegation.

Mr. Hager, from the San Francisco delegation, made the following report :

MR. PRESIDENT : The San Francisco delegation have had under consideration Senate Bill No. 72—An Act to settle and define the limits and boundaries of the County of Marin—respectfully report the same back, with amendments, and recommend the adoption of the amendments.

The said delegation object to the passage of the bill, on the following grounds :

First—That the bill proposes to extend the boundaries of Marin County into San Francisco County, against public interest and sentiment.

Second—That by so doing, an uncertain water line boundary running through the centre of the entrance of the Harbor of San Francisco will be established, thereby leaving the jurisdiction over the track of vessels entering and going out of the port uncertain and incapable of being defined by a natural, visible boundary.

Third—That if it should become a law, it would materially circumscribe the Port of San Francisco, by excluding therefrom a vast area of anchorage ground hitherto belonging to that port.

Fourth—That it would enable private persons to take up and locate swamp and overflowed lands at places on the Marin shore where they are now prohibited from doing so, by the five miles exemption applicable to the County of San Francisco, and thus enable them to obtain the control of a portion of the harbor lands and waters of the Bay of San Francisco.

Fifth—That it would be of no benefit to the inhabitants of the County of Marin to extend the jurisdiction of that county over the entrance to the Port and a portion of the present Harbor of San Francisco, but would be a serious injury and inconvenience to the commerce and people of San Francisco.

HAGER,
SAUNDERS,
TUBBS,
KINCAID,
For Delegation.

MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor :

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }
Sacramento, March 4th, 1868. }

To the Senate of the State of California :

I herewith return to your honorable body without my approval, Senate Bill No. 193—An Act to authorize D. W. McCollum and Charles M. Hargrave to construct and maintain a toll bridge in Mendocino County.

It is obnoxious to the objections which are applicable to all grants of special franchises where the whole subject is fully provided for by general laws. There seems to be no advantage in its passage, unless it is to save the grantees the fees for filing papers under the general statute or relieve them from placing a railing on the sides of the bridge, as provided in the Act relative to toll bridge companies, to be found in Hittell's Digest, volume one, Articles one thousand and six to one thousand and twenty-three.

There are, however, two other particulars in which this bill differs from the general law : The general law exempts funeral processions and children attending school from the payment of tolls ; this bill makes no exemptions whatever. The general law provides for the annual regulation of tolls, while this bill allows, in section three, the Board of Super-

visors of Mendocino County to fix the rates of tolls once, with a proviso, that the rates thus fixed may be changed or modified by the Legislature.

It can hardly be seriously supposed that the Legislature will devote its time to the revision of tolls upon each local bridge or road in the various counties.

H. H. HAIGHT, Governor.

President in the chair.

A lengthy message was received from the Governor declining to transmit, as directed, the resolutions offered by Mr. Heacock on Friday last, and finally adopted by the Senate on Monday last, relative to late actions of the President and Congress, and assigning his reasons therefor.

[For message see Appendix.]

Mr. Shaw moved that the reasons expressed in the Governor's message just read, why he declines to send the resolutions mentioned in said message to the Senate of the United States, be and they are declared satisfactory to the Senate.

Messrs. Mizner, Roberts and Murch demanded the ayes and noes on the proposition.

The vote was as follows :

AYES—Messrs. Conn, Curtis, Freeman, Hager, Hunter, Johnson, Lawrence, Lewis, Maclay, Mandeville, McDougall, Mizner, Morrill, Murphy, Pendegast, Rose, Saunders, Shaw—18.

NOES—Messrs. Beach, Belden, Bradley, Chappell, Ewer, Green, Hardy, Heacock, Murch, Perley, Pratt, Roberts, Robinson, Teegarden, Tubbs, Tweed, Wadsworth, Wolcott—18.

There being a tie, the President, in the exercise of his constitutional privilege, voted in the affirmative, and so the motion prevailed.

CONSIDERATION OF THE GOVERNOR'S VETO MESSAGE.

The Senate took up Senate Bill No. 193, returned with the Governor's objections, and on the question, Shall the bill pass notwithstanding the objections of the Governor? the roll was called, with the following result :

AYES—None.

NOES—Messrs. Beach, Belden, Bradley, Chappell, Conly, Conn, Curtis, Ewer, Freeman, Green, Hager, Heacock, Hunter, Johnson, Lawrence, Lewis, Maclay, Mandeville, McDougall, Mizner, Morrill, Murch, Murphy, Pendegast, Perley, Pratt, Roberts, Robinson, Rose, Saunders, Shaw, Teegarden, Tubbs, Tweed, Wadsworth, Wolcott—36.

Senate Concurrent Resolution No. 20—Proposed amendments to the Constitution of the State of California.

On concurring in the amendment made in Committee of the Whole, by which section two was amended by inserting the words "and twenty" between the words "hundred" and "days," occurring in the last line of said section, Messrs. Murch, Bradley and Rose demanded the ayes and noes.

The vote was as follows :

ville, McDougall, Mizner, Morrill, Murch, Murphy, Pendegast, Perley, Pratt, Roberts, Robinson, Rose, Saunders, Teegarden, Tweed, Wadsworth—30.

NOES—None.

So the amendment was adopted.

The rules were suspended, the resolution considered engrossed, read third time and passed.

Mr. Heacock offered the following resolutions as a substitute for the motion made by Mr. Shaw on yesterday, relative to the Governor's refusing to telegraph the Heacock resolutions :

Resolved, That the reason given by His Excellency the Governor, in the following portion of his message, viz: "That body [meaning the Senate of the United States], sits as a Court to try the President upon the charges presented, and any attempt to forestall the judgment of that or any other judicial tribunal before the accused is heard in his defence would be indelicate and improper," for not telegraphing the resolutions referred to therein, be deemed and accepted by the Senate as a sufficient reason for his refusal to telegraph the resolutions to the Honorable Benjamin F. Wade, President of the Senate of the United States, as directed by order of the Senate.

Resolved, further, That such reason does not apply to that portion of the order of the Senate which directs him to telegraph the resolutions to the Honorable Schuyler Colfax, Speaker of the House of Representatives of the Congress of the United States, and that no sufficient reason or cause is given or shown in his message for a failure to comply with such last mentioned portion of the order of the Senate; therefore be it further

Resolved, That the resolutions referred to in the Governor's message be returned to him, and that he be respectfully requested to immediately telegraph the first three of such resolutions to the Honorable Schuyler Colfax, Speaker of the House of Representatives of the Congress of the United States.

Carried.

REPORTS.

Mr. Hardy, Chairman of the Committee on Mines, made the following report :

MR. PRESIDENT : The Committee on Mines report back Senate Bill No. 380, with a recommendation that it pass.

HARDY, Chairman.

Mr. Heacock, Chairman of the Committee on Mileage, reported as follows :

MR. PRESIDENT : Your Committee on Mileage, to whom was referred Senate resolution relative to allowing the members of the Senate Hospital Committee the sum of thirty dollars each, additional to the amount heretofore allowed them as mileage, on account of “ error ” in the former report of your committee relative thereto, have had the same under consideration, and beg leave to report as follows :

By the former report of your committee, referred to in the resolution, the Hospital Committee members were each allowed mileage as follows :

Number of Miles.	Amount.
For visiting Industrial School, eight miles beyond San Francisco, 250 miles (going and returning), at twenty cents per mile,	\$50 00
For visiting State Reform School, eight miles beyond Marysville, 116 miles (going and returning), at twenty cents per mile.....	28 20
For visiting Insane Asylum, at Stockton, 90 miles (going and returning), at twenty cents per mile.....	18 00
Total.....	\$91 20

In accordance with the former report, which has been allowed to each member of the Hospital Committee, the same being the exact mileage allowed by law.

But since the Hospital Committee visited the Insane Asylum at Stockton, going and returning thence from San Francisco, instead of from the seat of government, they claim the additional mileage by reason of having travelled such route.

The law fixes the distance from San Francisco to Stockton at one hundred and seventeen miles, making a total (going and returning) of two hundred and thirty-four miles thus travelled by the committee, which at twenty cents per mile would amount to forty-six dollars and eighty cents; but as mileage has already been allowed them for visiting Stockton for the sum of eighteen dollars, the same being for the distance fixed by law, this latter amount should be deducted from the forty-six dollars and eighty cents, leaving the sum of twenty-eight dollars and eighty cents as the balance due each member of the committee, if the Senate concludes that the committee should be allowed mileage for the distance actually travelled, instead of the legal distances fixed by law.

The Senate having already established such a rule, your committee recommend the adoption of the following resolution:

Resolved, That Messrs. Teegarden, Maclay, Perley, Johnson and McDougall be each allowed for mileage, the sum of twenty-eight dollars and eighty cents, payable out of the Contingent Fund of the Senate, and that the State Controller draw his warrants therefor upon the State Treasurer, and that the Treasurer pay the same.

Resolved, That Senators Teegarden, Perley, Johnson, McDougall and Maclay be allowed and paid thirty dollars, it being the amount of "error" of one hundred and fifty miles in the mileage allowed said Senators yesterday; the distance travelled by them being six hundred miles instead of four hundred and fifty, as then computed.

HEACOCK, Chairman.

Mr. Belden, Chairman of the Judiciary Committee, made the following report:

Also, Senate Bill No. 406—An Act to amend an Act to regulate proceedings in civil cases in the Courts of justice in this State, passed April twenty-ninth, eighteen hundred and fifty-one—report the same back with an amendment and recommend its passage as amended.

Also, Senate Bill No. 279—An Act amendatory of and supplemental to an Act to regulate proceedings in criminal cases, approved May first, eighteen hundred and fifty-one, and the several Acts amendatory thereof and supplementary thereto—report the same back with an amendment and recommend its passage as amended.

BELDEN, Chairman.

Mr. PRESIDENT: The Assembly on yesterday passed, under a suspension of the rules, substitute for Assembly Bill No. 127—An Act to fix and determine the boundary line between the Counties of San Mateo and Santa Cruz.

J. A. EAGAN,
Chief Clerk.

CONSIDERATION OF ASSEMBLY MESSAGES.

REPORT.

Mr. Ewer, Chairman of the Committee on Claims, made the following report :

Also, Assembly Bill No. 211—An Act to provide for the payment of the State's portion of the salary of County Auditor of Alameda County;

Also, Assembly Bill No. 78—An Act to provide for the payment of the State's proportionate part of the County Auditor's salary in the County of Sutter;

Also, a petition from the County Auditor of Yuba County;

Having had the same under consideration, herewith report a general substitute bill to cover the whole subject matter, and recommend the passage of the substitute.

Also, having had under consideration, Senate Bill No. 299—An Act for

the relief of David Kohn—report the same back with an amendment, and without recommendation.

The bill provides for the payment to Mr. Kohn of the sum of ten thousand four hundred and fifty dollars worth of fraudulent soldiers' bounty and relief claims, forged by one M. E. Gelston, who was at the time a clerk in the office of the Adjutant-General of this State. Your committee have amended the bill by reducing the amount claimed to five thousand seven hundred and fifty dollars, that being the amount which passed the State Board of Examiners and were certified by them.

Your committee are of opinion that some equities attach to this case on the part of Kohn, who purchased a portion of these claims after they had passed the State Board of Examiners, and bore upon their face every appearance of genuineness and regularity. At the same time, believing that no claim for damages sustained by forgery is really a binding or obligatory one upon the State, your committee have thought proper to report the bill back without any recommendation, and leave the Senate to decide upon the merits of the case.

EWER, Chairman.

Since the passage of this bill I have received a protest from the Mayor and City Council of Los Angeles setting forth, in substance, that this bill, if passed, would inflict a wrong upon the corporation, and would virtually confiscate fifty thousand dollars expended by the city authorities in the construction of water works ; that the bill violates the rights and franchises of the municipality, and would diminish its revenue for the benefit of a few individuals interested in the company.

I learn, also, from the gentlemen who advocated the bill, that they were acting under a misapprehension of facts and would not, as at present advised, favor its passage.

Mr. Pratt appealed to the Senate, and subsequently withdrew the same.

Assembly Bill No. 444, above reported, read first and second times.

Mr. Tubbs raised a point of order, that the bill was properly No. 96 on the general file, and could not be taken up by a majority vote.

AYES—Messrs. Belden, Conly, Curtis, Freeman, Green, Hardy, Hunter, Johnson, Kincaid, Lawrence, Lewis, Maclay, Mandeville, McDougall, Mizner, Morrill, Murphy, Pearce, Pendegast, Pratt, Rose, Tweed, Wolcott—23.

PRESENTATIONS.

On behalf of the Senate, Mr. Pendegast addressed the President as follows:

MR. PRESIDENT: There are periods of a few moments duration in the life of every faithful and honest public officer when he reaps a full and rich reward for all of his labors, troubles and annoyances. Perhaps the most unhappy sensation which the human heart can endure is that caused by the feeling that an honest and laborious effort to be of service to the people is unnoticed and unappreciated by those intended to be benefited. And as a converse to this proposition, it is equally true that a single act or even word which indicates an intelligent and kindly recognition often produces a warm and glowing happiness. It is my hope to-night, sir, to bring that pleasurable feeling to the breast of the distinguished gentleman who has presided over the deliberations of the Senate of California during the session which is now at its close. I am charged by my brother Senators with the most pleasing duty of presenting to him, in the names and on the behalf of each and every one of them, the watch and chain which I now have before me. We tender this gift, not only as a recognition of his able and impartial Presidency, but as a peace offering and an atonement, trusting and believing that it will, not from its intrinsic value, but from the sincere and kindly feelings which prompt its donation, work for us a full and complete absolution for all our little infractions of order, ebullitions of temper and manifestations of impatience. The gift, sir, is a watch—a token upon which a long discourse might be based, if we were in the mood for sermonizing. I do not propose to attempt one. I shall simply say this—Lieutenant-Governor William Holden: At the request of the entire Senate, I present you with this watch and its accompanying chain. It is the product of each member's subscription—it is the token of each member's esteem. Take it, and with it the sincere hope that its hour hand may make many, many revolutions before the heart which beats under it shall be cold and still, and the form which bears it shall lie in that dark and narrow house of which it is the unfailing, unceasing premonitor.

[Here one of the Pages bore the watch to the President.]

The Lieutenant-Governor replied in appropriate terms, referring to the agreeable relations which had grown up between him and the members of the Senate, and to his uniform desire to perform his duties properly and impartially. If he had erred in any manner, he asked their pardon. He valued the present highly, and thanked them sincerely for it. With the cane, which was presented to him by his friends in the other House, and the glasses and timepiece he had been honored with here to-night, he would tramp on to the end of the journey of life; and when the pulse should beat but softly, and the blood creep slowly through his veins and heart, when the objects of this world should be seen but dimly through the death film, the tick of this watch under his

pillow, the sight of that cane lying uselessly by his side, and those glasses that could then no longer restore his vision, would cause the flickering lamp to burn more brightly, as they called the wandering memory back to the donors of those mementoes, and to the associations of the vigor of manhood. He wished that he could express the fulness of his gratitude, but words were not found upon the lips when the heart itself would speak.

Mr. Belden, on behalf of the members of the Senate, presented the President pro tem., Mr. Mizner, with a beautiful service of silver plate.

Mr. Mizner accepted the present with an appropriate speech.

A similar present was made by Mr. Curtis, on behalf of the members of the Senate, to John White, Secretary.

The Secretary expressed himself deeply moved by the unexpected testimonial presented to him by Senators and friends. Assuming his official station at the desk, he briefly and pointedly responded to the eulogistic remarks of Mr. Curtis, and improved the occasion to make a merited acknowledgment to his assistants, for the industry and fidelity displayed by them, and for the valuable assistance, on all occasions, rendered by them.

MOTIONS AND RESOLUTIONS.

Mr. Lewis introduced the following resolution :

Resolved, That the thanks of the Senate are hereby tendered to the President, Lieutenant-Governor Holden, for the impartial manner in which he has discharged his duties as the presiding officer of this Senate.

Unanimously adopted.

Adopted.

Mr. Mandeville, from the Joint Committee appointed to wait upon the Governor, and ascertain whether he had any further communication to make, reported that he had no further communication to make to this Legislature.

On motion of Mr. Green, the Lieutenant-Governor was authorized to examine and approve the Journal of to-day.
